David Parr, a human from Earth summoned by Darius that reluctantly remains in Neoluzia to assist the Salon of Enlightenment against their Orc enemies, must find the great necromancer Termaplix if the land is to be saved. Finding Termaplix may be impossible however, for the hero from the War of Cleansing has been hidden in a secret place due to unknown circumstances one thousand years ago--a tomb long since forgotten to the current generations in the land. Perilously stifled in their shift away from the old magic and the forced elimination of history, those that Parr seeks to help against the enemy from the north must first learn to embrace the gift of magic again, an art banished in antiquity by the deception of peace and the deep wounds of the surviving populations in the first war.
