The lives, deaths, poetry, diaries and extracts from letters of sixty-six soldier-poets are brought together in this limited edition of Anne Powell's unique anthology; a fitting commemoration for the centenary of the First World War. These poems are not simply the works of well-known names such as Wilfred Owen – though they are represented – they have been painstakingly collected from a multitude of sources, and the relative obscurity of some of the voices makes the message all the more moving. Moreover, all but five of these soldiers lie within forty-five miles of Arras. Their deaths are described here in chronological order, with an account of each man's last battle. This in itself provides a revealing gradual change in the poetry from early naïve patriotism to despair about the human race and the bitterness of 'Dulce et Decorum Est'.

A remarkable photographic record of World War One, its relentless progression and the destruction it wrought, as seen from the skies above Flanders Fields

In Flanders Fields Oxford University Press, USA

A new wartime classic from two legends of children's literature! Michael Morpurgo and Michael Foreman have teamed up with

the British Legion to tell a new story inspired by the history of the poppy. When John McCrae wrote his famous poem "In Flanders Field" among the trenches of war-torn Belgium, neither he nor a local village girl who saves a discarded draft of it could know what enormous power that poem would have on generations to come.

The story of John McCrae's World War I poem interweaves the poet's words with information about the war, details of daily life in the trenches, accounts of McCrae's experience in his field hospital, and the circumstances that contributed to the poem's creation. Simultaneous.

Of all the grim, gallant and inglorious battles of the Western Front, Passchendaele is the name evocative of the mud and blood that pervaded World War I. The total gain - a few thousand yards of indefensible slough - cost about a million Allied lives.

The first big book on one of the most overlooked episodes in Canadian history, and the origin of today's greatest national debate, *Let the Eastern Bastards Freeze in the Dark* relives the 1918 attempt by 3 premiers to wrest control of their natural resources away from Ottawa--and end their role as second-class provinces. The oil sands. Global warming. The National Energy Program. Though these seem like modern Canadian subjects, Mary Janigan reveals them to be a legacy of longstanding regional rivalry. Something of a "Third Solitude" since entering Confederation, the West has long been

overshadowed by Canada's other great national debate. But as the conflict over natural resources and their effect on climate change heats up, 150 years of antipathy are coming to a head. Janigan takes readers back to a pivotal moment in 1918, when Canada's western premiers descended on Ottawa determined to control their own future--and as Margaret MacMillan did in Paris 1919, she deftly illustrates how the results reverberate to this day.

John McCrae, a doctor and poet who served in Europe during the First World War, composed "In Flanders Fields", one of the most enduring literary expressions of the horrors of war. On the occasion of the 100th anniversary of the beginning of the First World War, *In Flanders Fields and Other Poems* is being reissued.

[In Flanders Fields](#) HarperCollins UK

A beautifully designed collection of essays on war, loss and remembrance to commemorate the 100th anniversary of the writing of Canada's most famous poem. In early 1915, the death of a young friend on the battlefields of Ypres inspired Canadian soldier, field surgeon and poet John McCrae to write "In Flanders Fields." Within months of the poem's December 1915 publication in the British magazine *Punch* it became part of the collective consciousness in North America and Europe, and its extraordinary power has endured over the decades and across generations. In this anthology, Canada's finest historians, novelists and poets contemplate the evolving meaning of the poem; the man who wrote it and the World War I setting from which it emerged; its themes of valour, grief and remembrance; and the iconic image of the poppy. Among the thirteen contributors: Lieutenant-General Roméo Dallaire (ret'd) writes about the emotional meaning of the poem for war veterans; Tim Cook describes the rich and varied life of McCrae;

Frances Itani revisits her time in Flanders, and mines the acts of witnessing and remembering; Kevin Patterson offers a riveting depiction of the adrenaline-fueled work of a WWI field surgeon; Mary Janigan reveals the poem's surprisingly divisive effect during the 1917 federal election; Ken Dryden tells us how lines from the poem ended up on the wall of the Montreal Canadiens' dressing room; and Patrick Lane recalls a Remembrance Day from his childhood in a moving reflection on how war shapes us all. Gorgeously designed in full colour with archival and contemporary images, *In Flanders Fields: 100 Years* will reflect and illuminate the importance of art in how we process war and loss.

In 1914, Ypres was a sleepy Belgian city admired for its magnificent Gothic architecture. The arrival of the rival armies in October 1914 transformed it into a place known throughout the world, each of the combatants associating the place with its own particular palette of values and imagery. It is now at the heart of First World War battlefield tourism, with much of its economy devoted to serving the interests of visitors from across the world. The surrounding countryside is dominated by memorials, cemeteries, and museums, many of which were erected in the 1920s and 1930s, but the number of which are being constantly added to as fascination with the region increases. Mark Connelly and Stefan Goebel explore the ways in which Ypres has been understood and interpreted by Britain and the Commonwealth, Belgium, France, and Germany, including the variants developed by the Nazis, looking at the ways in which different groups have struggled to impose their own narratives on the city and the region around it. They explore the city's growth as a tourist destination and examine the sometimes tricky relationship between local people and battlefield visitors, on the spectrum between respectful pilgrims and tourists seeking shocks and thrills. The result of new and extensive archival research across a number of countries, this new volume in the *Great Battles* series offers an innovative overview of the development of a critical site of Great War memory.

"The product of over twenty-five years of research, *Beneath Flanders Fields* illustrates the evolution of military mining, leading to its deployment in the greatest siege in military history - in the trenches of the Western Front." "In the words of the tunnellers themselves, and through previously unpublished photographs - many in colour - as well as contemporary plans and drawings, this book

reveals how this most intense of battles was fought - and won. Few on the surface knew the horrific details of the tunnellers' work, yet this silent, claustrophobic conflict was a barbaric struggle that raged day and night for almost two and a half years, and one which generated mental and physical stresses often far beyond those suffered by the infantry in the trenches. On 7 June 1917 at Messines Ridge, the tension was broken with the opening of the most dramatic mine offensive in history."--BOOK JACKET.

The horrors of the First World War released a great outburst of emotional poetry from the soldiers who fought in it as well as many other giants of world literature. Wilfred Owen, Rupert Brooke and W B Yeats are just some of the poets whose work is featured in this anthology. The raw emotion unleashed in these poems still has the power to move readers today. As well as poems detailing the miseries of war there are poems on themes of bravery, friendship and loyalty, and this collection shows how even in the depths of despair the human spirit can still triumph.

The author recreates, by means of contemporary photographs juxtaposed with others taken by him over a number of years plus eyewitness accounts and narrative, the atmosphere, past and present, of that once famous salient. He aims to present a moving tribute to the men who fought with great courage and tenacity in the horrendous conditions that prevailed in Flanders during what was known as the Great War. To them Wipers was more than just a foreign city, it was a way of life and, for so very many, a way to death.

In this riveting and suspenseful New York Times best-selling book, Adam Hochschild brings WWI to life as never before... World War I was supposed to be the "war to end all wars." Over four long years, nations around the globe were sucked

into the tempest, and millions of men died on the battlefields. To this day, the war stands as one of history's most senseless spasms of carnage, defying rational explanation. *To End All Wars* focuses on the long-ignored moral drama of the war's critics, alongside its generals and heroes. Many of these dissenters were thrown in jail for their opposition to the war, from a future Nobel Prize winner to an editor behind bars who distributed a clandestine newspaper on toilet paper. These critics were sometimes intimately connected to their enemy hawks: one of Britain's most prominent women pacifist campaigners had a brother who was commander in chief on the Western Front. Two well-known sisters split so bitterly over the war that they ended up publishing newspapers that attacked each other. Hochschild forces us to confront the big questions: Why did so many nations get so swept up in the violence? Why couldn't cooler heads prevail? And can we ever avoid repeating history?

*The Poppy* Simon and Schuster

An eloquent counterpoint to the senselessness and inhumanity of war, *In Flanders Fields* tells the story of a young homesick World War I soldier who risks his life to cross the no-man's-land and rescue a robin caught in the barbed wire that separates the opposing forces.

**To End All Wars** Random House Australia

From the Pulitzer Prize-nominated author of *Forrest Gump*: "A fascinating, evenhanded, page-turning account" of Ypres's pivotal WWI battles (*San Francisco Chronicle*). The Ypres Salient in Belgian Flanders was the most notorious and dreaded territory in all of World War I—possibly of any war in history. After Germany's failed attempt to capture Britain's critical ports along the English Channel, a bloody stalemate ensued in this pastoral area no larger than the island of Manhattan. Ypres became a place of horror, heroism, and terrifying new tactics and technologies: poison gas, tanks, mines, air strikes, and the unspeakable misery of trench warfare. Drawing on the journals of the men and women who were there, Winston Groom has penned a drama of politics, strategy, the human heart, and the struggle for victory against all odds. This ebook features 16 pages of black-and-white historical photographs. "Everything nonfiction should be." —Fort Worth Star-Telegram "Groom reconstructs a forgotten military passage that serves as a cautionary tale about war's consequences." —Pittsburgh Tribune-Review "Groom's account, full of detail and the smell of gunsmoke, is expertly paced and free of dull stretches." —Kirkus Reviews "Moving . . . Inspiring . . . An important and brilliantly written book." —Booklist

[The Last of the Doughboys](#) Erin, Ont. : Boston Mills Press  
In 1957 after a century of scathing debates and threats of

provincial separation Ottawa finally tackled the dangerous fiscal inequalities among its richer and poorer provinces. Equalization grants allowed the poorer provinces to provide relatively equal services for relatively equal levels of taxation. The Art of Sharing tells the dramatic history of Canada's efforts to save itself. The introduction of federal equalization grants was controversial and wealthier provinces such as Alberta – wanting to keep more of their taxpayers' money for their own governments – continue to attack them today. Mary Janigan argues that the elusive ideal of fiscal equity in spite of dissent from richer provinces has helped preserve Canada as a united nation. Janigan goes back to Confederation to trace the escalating tensions among the provinces across decades as voters demanded more services to survive in a changing world. She also uncovers the continuing contacts between Canada and Australia as both dominions struggled to placate disgruntled member states and provinces that blamed the very act of federation for their woes. By the mid-twentieth century trapped between the demands of social activists and Quebec's insistence on its right to run its own social programs Ottawa adopted non-conditional grants in compromise. The history of equalization in Canada has never been fully explored. Introducing the idealistic Canadians who fought for equity along with their radically different proposals to achieve it The Art of Sharing makes the case that a willingness to share financial resources is the real tie that has bound the federation together into the twenty-first century.

The Practice of Strategy Courier Corporation

The First World War brought peoples from five continents to support the British and French Allies on the Western Front. Many were from colonial territories in the British and French empires, and the largest contingents were Indians and Chinese - some 140,000. It is a story of the encounter with the European 'other', including the civilian European local populations, often marred by racism, discrimination and xenophobia both inside and outside the military command, but also lightened by moving and enduring 'human' social relationships. The vital contribution to the Allies and the huge sacrifices involved were scarcely recognised at the Paris Peace Conference in 1918 or

the post-war victory celebrations and this led to resentment - see huge media coverage in 2021. The effect of the European 'other' experience enhanced Asian political awareness and self-confidence, and stimulated anti-imperialism and proto-nationalism. This is a vivid and original contribution to imperial decline from the First World War. and the originality of the work is enhanced by rare sources culled from original documents and 'local' European fieldwork - in French, German and Flemish.
