2021 NAACP Image Award Nominee: Outstanding Literary Work – Non-Fiction Honorable Mention for the 2021 Organization of American Historians Darlene Clark Hine Award A vibrant and empowering history that emphasizes the perspectives and stories of African American women to show how they are—and have always been—instrumental in shaping our country In centering Black women’s stories, two award-winning historians seek both to empower African American women and to show their allies that Black women’s unique ability to make their own communities while combatting centuries of oppression is an essential component in our continued resistance to systemic racism and sexism. Daina Ramey Berry and Kali Nicole Gross offer an examination and celebration of Black womanhood, beginning with the first African women who arrived in what became the United States to African American women of today. A Black Women’s History of the United States reaches far beyond a single narrative to showcase Black women’s lives in all their fraught complexities. Berry and Gross prioritize many voices: enslaved women, freedwomen, religious leaders, artists, queer women, activists, and women who lived outside the law. The result is a starting point for exploring Black women’s history and a testament to the beauty, richness, rhythm, tragedy, heartbreak, rage, and enduring love that abounds in the spirit of Black women in communities throughout the nation.

The classic ghost story from the author of *The Mist in the Mirror*: a chilling tale about a menacing spectre haunting a small English town. Arthur Kipps is an up-and-coming London solicitor who is sent to Crythin Gifford—a faraway town in the windswept salt marshes beyond Nine Lives Causeway—to attend the funeral and settle the affairs of a client, Mrs. Alice Drablow of Eel Marsh House. Mrs. Drablow’s house stands at the end of the causeway, wreathed in fog and mystery, but Kipps is unaware of the tragic secrets that lie hidden behind its sheltered windows. The routine business trip he anticipated quickly takes a horrifying turn when he finds himself haunted by a series of mysterious sounds and images—a rocking chair in a deserted nursery, the eerie sound of a pony and trap, a child’s scream in the fog, and, most terrifying of all, a ghostly woman dressed all in black. Psychologically terrifying and deliciously eerie, *The Woman in Black* is a remarkable thriller of the first rate. The basis for the major motion picture starring Daniel Radcliffe.

We are witnessing a worldwide resurgence of reactionary ideologies and movements, combined with an escalating assault on democratic institutions and structures. Nevertheless, most studies of these phenomena remain anchored in a methodological nationalism, while comparative research is almost entirely limited to the Global North. Yet, authoritarian transformations in the South—and the struggles against them—have not only been just as dramatic as those in the North but also preceded them, and consequently have been studied by Southern scholars for many years. This volume brings together the work of more than 15 scholar-activists from across the Global South, combining in-depth studies of regional processes of authoritarian transformation with a global perspective on authoritarian capitalism. With a foreword by Verónica Gago.

A Major New Translation *The Red and the Black*, Stendhal’s masterpiece, is the story of Julien Sorel, a young dreamer from the provinces, fueled by Napoleonic ideals, whose desire to make his fortune sets in motion events both mesmerizing and tragic. Sorel’s quest to find himself, and the doomed love he encounters along the way, are delineated with an unprecedented psychological depth and realism. At the same time, Stendhal weaves together the social life and fraught political intrigues of post-Napoleonic France, bringing that world to unforgettable, full-color life. His portrait of Julien and early-nineteenth-century France remains an unsurpassed creation, one that brilliantly anticipates modern literature. Neglected during its time, *The Red and the Black* has assumed its rightful place as one of the world’s great books, and Burton Raffel’s extraordinary new translation, coupled with an enlightening Introduction by Diane Johnson, helps it shine more brightly than ever before.

Killing the Black Body remains a rallying cry for education, awareness, and action on extending reproductive justice to all women. It is as crucial as ever, even two decades after its original publication. "A must-read for all those who claim to care about racial and gender justice in America." —Michelle Alexander, author of *The New Jim Crow* In 1997, this groundbreaking book made a powerful entrance into the national conversation on race. In a media landscape dominated by racially biased images of welfare queens and crack babies, *Killing the Black Body* exposed America’s systemic abuse of Black women’s bodies. From slave masters’ economic stake in bonded women’s fertility to government programs that coerced thousands of poor Black women into being sterilized as late as the 1970s, these abuses pointed to the degradation of Black motherhood—and the exclusion of Black women’s reproductive needs in mainstream feminist and civil rights agendas. “Compelling. . . . Deftly shows how distorted and racist constructions of black motherhood have affected politics, law, and policy in the United States.” —Ms.

In *Our Separate Ways*, authors Ella Bell and Stella Nkomo take an unflinching look at the surprising differences between black and white women’s trials and triumphs on their way up the corporate ladder. Based on groundbreaking research that spanned eight years, *Our Separate Ways* compares and contrasts the experiences of 120 black and white female managers in the American business arena. In-depth histories bring to life the women’s powerful and often difficult journeys from childhood to professional success, highlighting the roles that gender, race, and class played in their development. Although successful professional women come from widely diverse family backgrounds, educational experiences, and community values, they share a common assumption upon entering the workforce: "I have a chance." Along the way, however, they discover that people question their authority, challenge their intelligence, and discount their ideas. And while gender is a common denominator among these women, race and class are often wedges between them. In *Our Separate Ways*, you will find candid discussions about stereotypes, learn how black women’s early experiences affect their attitudes in the business world, become aware of how white women have—perhaps unwittingly—aligned themselves more often with white men than with black women, and see ways that our country continues to come to terms with diversity in all of its dimensions. Whether you are a human resources director wondering why you’re having trouble retaining black women, a white female manager considering the role of race in your office, or a black female manager searching for perspectives, you will find fresh insights about how black and white women’s struggles differ and encounter provocative ideas for creating a better workplace environment for everyone.

The #1 international best seller *In Lean In*, Sheryl Sandberg reignited the conversation around women in the workplace. Sandberg is chief operating officer of Facebook and coauthor of *Option B* with Adam Grant. In 2010, she gave an electrifying TED talk in which she described how women unintentionally hold themselves back in their careers. Her talk, which has been viewed more than six million times, encouraged women to “sit at the table,” seek challenges, take risks, and pursue their goals with gusto. *Lean In* continues that conversation, combining personal anecdotes, hard data, and compelling research to change the conversation from what women can’t do to what they can. Sandberg provides practical advice on negotiation techniques, mentorship, and building a satisfying career. She describes specific steps women can take to combine professional achievement with personal fulfillment, and demonstrates how men can benefit by supporting women both in the workplace and at home. Written with humor and wisdom, *Lean In* is a revelatory, inspiring call to action and a blueprint for individual growth that will empower women around the world to achieve their full potential.

International Communism and the Spanish Civil War provides an intimate picture of international communism in the Stalin era. Exploring the transnational exchanges that occurred in Soviet-structured spaces - from clandestine schools for training international revolutionaries in Moscow to the International Brigades in Spain - the book uncovers complex webs of interaction, at once personal and political, that linked international communists to one another and the Soviet Union. The Spanish Civil War, which coincided with the great purges in the Soviet Union, stands at the center of this grassroots history. For many international communists, the war came to define both their life histories and political commitments. In telling their individual stories, the book calls attention to a central paradox of Stalinism - the simultaneous celebration and suspicion of transnational interactions - and illuminates the appeal of a cause that promised solidarity even as it practiced terror. *Cross-Cultural Family Research and Practice* transcript Verlag

Querida amiga, querido amigo, este libro está escrito en género femenino, ya te habrá dado cuenta si has echado un vistazo a las primeras páginas. La razón por la que en mis últimas obras prevalece este género que es el más numeroso del planeta es, simplemente, por una razón de justicia. Desde que nuestras antepasadas primates bajaron de los árboles y empezaron a caminar erguidas convirtióéndose en homínidas, el masculino ha dominado todos los aspectos de la sociedad humana. ¿No es hora de cambiarlo? Para que la justicia social se convirtiera en una realidad deberíamos hablar en femenino por lo menos durante los próximos cien millones de años. Todos los científicos, descubridores, artistas y escritores hasta los últimos cincuenta años han sido hombres. La mujer estaba relegada a la invisibilidad. La famosa frase que aún suena en algunos lugares "el hombre llegó a la luna" me llena de rabia, y como este hay infinidad de ejemplos. Así que hablemos en femenino! Os lo debemos, mitad más numerosa de la Humanidad. Gracias por todo. J.P. Johnson vive en la isla de Mallorca. Ex-guardaespaldas de autoridades militares y broker de bolsa, actualmente se dedica en exclusiva a la literatura. Es autor de las célebres sagas "El Quinto Origen", "La Venganza de la Tierra" y "El Diablo sobre la isla" (publicada con su verdadero nombre, Joan Pont), además de la serie de autoayuda "Sí, quiero. In *The Politics of Decolonial Investigations* Walter D. Mignolo provides a sweeping examination of how coloniality has operated around the world in its myriad forms from the sixteenth century to the twenty-first. Decolonial border thinking allows Mignolo to outline how the combination of the self-fashioned narratives of Western civilization and the hegemony of Eurocentric thought served to eradicate all knowledges in non-European languages and praxes of living and being. Mignolo also traces the geopolitical origins of racialized and gendered classifications, modernity, globalization, and cosmopolitanism, placing them all within the framework of coloniality. Drawing on the work of theorists and decolonial practitioners from the Global South and the Global East, Mignolo shows how coloniality has provoked the emergence of decolonial politics initiated by delinking from all forms of Western knowledge and subjectivities. The urgent task, Mignolo stresses, is the epistemic reconstitution of categories of thought and praxes of living destituted in the very process of building Western civilization and the idea of modernity. The overcoming of the long-lasting hegemony of the West and its distorted legacies is already underway in all areas of human existence. Mignolo underscores the relevance of the politics of decolonial investigations, in and outside the academy, to liberate ourselves from canonized knowledge, ways of knowing, and praxes of living.
