This book illustrates how the experiential histories of teachers shape and inform the knowledge of teachers as professionals. Situating personal experiences into the context of social, political, and economic events gives clarity to the intercultural dynamics of being Chinese and Western. What can we learn from each other to transform our teaching and learning? The book engages in a cross-cultural perspective that is highly relevant for teachers, teacher education, curriculum making and policy planning for a global community. The book is also an invitation to internationalize the classroom for teaching and learning in a diverse and global world, and to educators and policy makers to expand our understanding of cross-cultural complexities for an increasingly diversified and global community. By viewing the classroom through the multiple lens of different cultures, educators have an opportunity to cross over to see, experience, and understand how others live.

Roller rinks like the M&M Skateway hosted not only skaters but also dances featuring Fats Domino and Roy Orbison. Commuters hopped aboard the FART bus to save on gas, and frequenting Dave's Giant Hamburgers was a rite of passage. Longtime Daily Republic columnist and accidental historian Tony Wade takes a deep dive into the Fairfield of yesteryear.

Steven writes, "I picture this book like an astrology friend - someone you met at a class or a conference a year or two ago. Maybe you get together for coffee every few months and talk about charts." Like those serendipitous, freewheeling conversations, you never know exactly where The Endless Sky is going to lead. As you explore these pages, magic happens: you find yourself escaping the pigeon-holing attitudes of conventional astrology and replacing them with the fresh air of freedom, choice, and imagination.

Please note: This is a companion version & not the original book. Sample Book Insights: #1 We expect writers to know the rules before they can write, and this expectation creates insecurity and inadequacy. #2 The world is filled with writing that is no fun and not optional, and we can't eliminate the five-paragraph theme or the what-I-did-on-my-summer-vacation essay, but we can invest them with meaning beyond the assignment affliction. #3 The personal is indeed central to writing. We need to inject the intelligence and personality of the writer into the five-paragraph theme, and we must understand that every writing act is ultimately an exchange between two people. #4 Writing is hard, and it will always be hard. Don't expect anything less than a lot of sweat.
