Together, the two volumes of the Dictionary of Geotechnical Engineering (G-E, E-G) contain some 60,000 entries, with common synonyms given in the target language, where available. Similarly, additional explanations help to differentiate the headwords. Apart from general terms used in geology, the dictionary covers the more practical fields within geosciences, the emphasis being placed on mining, soil analysis, reconnaissance geology, geophysics, geomorphology, civil engineering, hydrogeology, hydraulic engineering, geological engineering, cartography, soil deposits, mineralogy, oceanography and surveying.

Bulletin of New Books, No.-- Routledge

For more than a century and a half the real story of Scotlands connections to transatlantic slavery has been lost to history and shrouded in myth. There was even denial that the Scots unlike the English had any significant involvement in slavery .Scotland saw itself as a pioneering abolitionist nation untainted by a slavery past.This book is the first detailed attempt to challenge these beliefs.Written by the foremost scholars in the field , with findings based on sustained archival research, the volume systematically peels away the mythology and radically revises the traditional picture.In doing so the contributors come to a number of surprising conclusions. Topics covered include national amnesia and slavery,the impact of profits from slavery on Scotland, Scots in the Caribbean sugar islands ,compensation paid to Scottish owners when slavery was abolished,domestic controversies on the slave trade,the role of Scots in slave trading from English ports and much else. The book is a major contribution to Scottish history,to studies of the Scots global diaspora and to the history of slavery within the British Empire.It will have wide appeal not only to scholars and students but to all readers interested in discovering an untold aspect of Scotlands past.

Using rhetorical criticism as a research method, Public Memory and the Television Series Outlander examines how public memory is created in the first four seasons of the popular television show Outlander. In this book, Valerie Lynn Schrader discusses the connections between documented history and the series, noting where Outlander's depiction of events aligns with documented history and where it does not, as well as how public memory is created through the use of music, language, directorial and performance choices, and mise-en-scène elements like filming location, props, and costumes. Schrader also explores the impact that Outlander has had on Scottish tourism (known as the "Outlander effect") and reflects on whether other filming locations or depicted locations may experience a similar effect as Outlander's settings move from Scotland to other areas of the world. Furthermore, Schrader suggests that the creation of public memory through the television series encourages audiences to learn about history and reflect on current issues that are brought to light through that public memory.

The White Man's World Edinburgh University Press

The first full-length study of Scottish literature using a post-devolutionary understanding of postcolonial studies. Using a comparative model and spanning over two hundred years of literary history from the 18th Century to the contemporary, this collection of 19 new essays by some of the leading figures in the field presents a range of perspectives on Scottish and postcolonial writing. The essays explore Scotland's position on both sides of the colonial divide and also its role as instigator of a devolutionary process with potential consequences for British Imperialism.

Danny Boyle is one of contemporary filmmaking ' s most exciting talents. Since the early 1990s he has steadily created a

body of work that crosses genres and defies easy categorisation, from black humour (Shallow Grave), gritty realism (Trainspotting), screwball comedy (A Life Less Ordinary), cult adaptations (The Beach), and horror (28 Days Later), to science fiction (Sunshine), children ' s drama (Millions), love stories (Slumdog Millionaire) and tales of personal redemption (127 Hours). Unlike many of his peers, Boyle seems most comfortable when working with modest budgets, relying on acting ability rather than special effects, and surrounding himself with a trusted team of writers, cinematographers and production designers. His restless energy, vitality and drive find their expression in the celebratory tone of his films – their lust for life. In this book, Mark Browning provides a rigorous but highly accessible analysis of Boyle ' s work, discussing the processes by which he absorbs generic and literary influences, the way he gains powerful performances both from inexperienced casts and A-list stars, his portrayal of regional identity, his use of moral dilemmas as a narrative trigger, and the religious undercurrents that permeate his films.

This volume meditates on the various meanings of legitimation and expands on the notion that language can be used to gain or preserve it by demonstrating the added impact of other modes in specific examples of political and institutional discourse. The book draws on a multilayered framework that builds on and integrates work from both critical discourse analysis and social semiotic traditions, as well as the work of philosophers such as Habermas, Weber, and Rousseau, to show how it might be applied in practice to analyse and understand myriad forms of discourse. The volume focuses on examples from political campaign spots, which highlight various modes, including images, film, oratory, and color, but are also of global relevance and scale, highlighting their unique and complex position at the nexus between legitimation and multimodality. Offering a new analytical framework for understanding legitimation across a range of discursive contexts, this book will be of particular interest to students and scholars in discourse analysis, multimodality, political science, psychology, design, and education.

The Second Edition of this best-selling text provides a fully revised and up-to-date critical analysis of a wide range of issues surrounding young people, disorder and crime. How and why have certain aspects of young people's behaviour come to be perceived as 'anti-social' and 'criminal'? Are young people now more of a threat than ever before? How can we make sense of New Labour's youth justice reforms? Is the youth justice system soft on crime? Are young people more in need of protection than disciplinary punishment? To develop a comprehensive criminology of youth the book deliberately moves.
