Bring more colour into your crochet with these bright and beautiful patterns. Imagine you are in the wool shop or searching for yarn online - do you instinctively go for the reds and pinks, naturally veer towards soft blues and greens, or head to the dark side of greys and blacks? The relationship between colours and our state of mind is well established, but we don't often consciously notice how much different colours affect us or understand why we favour some over others. Emma Leith is known for her colourful crochet, and has designed 35 projects that will bring you the psychological benefits of working with different shades, along with the enjoyment of creating beautiful items for the home and to wear. There is a chapter for each season, to reflect the colours of nature in spring, summer, autumn and winter, and then a chapter of 'four seasons' designs, showing you how to mix shades from different times of the year. With notes on the colour therapy benefits of different patterns, and suggestions for switching shades to suit your own preferences, you will soon be crocheting in full colour.

Traditional knot and interlace patterns, combined to form uniquely striking contemporary designs. Ever since her ground-breaking book *Viking Patterns for Knitting* was published, Elsebeth Lavold has been recognized as one of the world's leading experts on cabling. It was within the pages of her international bestseller—described as “an indispensable milestone in 20th century knitting literature”—that Lavold first introduced the world to her own innovation: using lifted increases to create interlace patterns, and bringing new life to the ornamental heritage of the Vikings as adornment on modern knitwear. In the years since, Lavold has sought new ideas and “design cousins” to Viking patterns to explore with her needles, and has undertaken a fascinating journey through archives, museums, libraries, and the internet. In more than a decade of continued research, she has studied cultures from all over the globe in search of similar types of ornamental expression, creating the foundation for this exciting new book: a glorious collection rich in imagery, history, patterns, and designs. Dozens of different sources of inspiration, catalogued and placed within their cultural and historical context, from all around the world. Complete, step-by-step instructions for an abundance of fresh and stunningly beautiful knit designs, presented in the book with full-color photographs. Lavold's own painstaking analysis of a huge number of interlace motif types, displayed in both swatch and chart form, to allow you to compose your own patterns based on her research.

However, those demands won't be met without a fundamental shift from traditional, teacher-centered instruction toward innovative, student-centered teaching and learning. For schools ready to make such a shift, project-based learning (PBL) offers a proven framework to help students be better equipped to tackle future challenges. Project Based Teachers encourage active questioning, curiosity, and peer learning; create learning environments in which every student has a voice; and have a mastery of content but are also comfortable responding to students' questions by saying, "I don't know. Let's find out together." In this book, Suzie Boss and John Larmer build on the framework for Gold Standard PBL originally presented in *Setting the Standard for Project Based Learning* and explore the seven practices integral to Project Based Teaching: Build the Culture Design and Plan Align to Standards Manage Activities Assess Student Learning Scaffold Student Learning Engage and Coach For each practice, the authors present a wide range of practical strategies and include teachers' reflections about and suggestions from their classroom experiences. This book and a related series of free videos provide a detailed look at what's happening in PBL classrooms from the perspective of the Project Based Teacher. Let's find out together.
