“ordinary cities” as they struggle to implement creative redevelopment and economic growth strategies to enhance their global competitiveness. The book is concerned with new and often unanticipated inequalities that have emerged from this new city movement. As chronicled, such cities – Cleveland (USA), Heidelberg (Germany), Oxford (UK), Groningen (Netherlands), Montpellier (France), but also cities from the Global South such as Cachoeira (Brazil) and Delhi (India) –

now experience new and unexpected realities of poverty, segregation, neglect of the poor, racial and ethnic strife. To date planners, academics, and policy analysts have paid little attention to the connections between this drive in these cities to be more creative and the inequalities that have followed. This book, keenly making these connections, highlights the limited visions that have been applied in this planning drive to make these cities more creative and ultimately more globally competitive.

The published work of Claude Levi-Strauss over the last three and a half decades has established him as one of the world's most innovative anthropologists. Yet throughout this period he was maintaining a full teaching commitment in Paris. The pieces in *Anthropology and Myth* illustrate (in his own words) the efforts, the tentative advances and retreats and now and again the

achievements of a thought process during some thirty-two years that amount to a large proportion of an individual life and the span of a generation. Levi-Strauss used the lecture theatre as a workshop in which to try out and develop new ideas, and many of the familiar themes of his books will be found here: analysis of myth and ritual, totemism, kinship, marriage and social structure.

Offering a unique glimpse of the genesis of such subjects throughout his teaching career, this book provides a sketchbook of the themes painted elsewhere in larger, more finished form, and thus forms a document of vital importance for the history of anthropological thought. *Love's Trilogy* Health Research Books

Lavransdatter A Penguin Classic More than a decade before writing Kristin Lavransdatter, the trilogy about fourteenth-century Norway that won her the Nobel Prize, Sigrid Undset published Gunnar's Daughter, a brief, swiftly moving tale about a more violent period of her country's history, the Saga Age. Set in Norway and Iceland at the beginning of the eleventh century, Gunnar's Daughter is the story of the beautiful, spoiled Vigdis Gunnarsdatter, who is

raped by the man she had wanted to love. A woman of courage and intelligence, Vigdis is toughened by adversity. Alone she raises the child conceived in violence, repeatedly defending her autonomy in a world governed by men. Alone she rebuilds her life and restores her family's honor—until an unremitting social code propels her to take the action that again destroys her happiness. First published in 1909, Gunnar's Daughter was in part a response to the rise of

nationalism and Norway's search for a national identity in its Viking past. But unlike most of the Viking-inspired art of its period, Gunnar's Daughter is not a historical romance. It is a skillful conversation between two historical moments about questions as troublesome in Undset's own time—and in ours—as they were in the Saga Age: rape and revenge, civil and domestic violence, troubled marriages, and children made victims of their parents' problems. The aim of this publication is an analysis of the process of European constitutionalisation and its entanglement with relevant national discourses. Thus, national constitutional traditions in Austria, France, Germany and the United Kingdom are evaluated with regard to the positions of the

respective national representatives in the European Convention. Interviews with Members of National Parliaments and of the European Parliament as well as a content analysis of the debate on the future of Europe in print media form the empirical basis of this study.

relax ... Bo, 26, has always been careful, cautious. However, she's just been made redundant and her life plan is beginning to unravel. Before she starts immediately applying for other jobs in a panic, her friend Kirsten persuades her to take a holiday, to visit Kirsten's mother's house in Aalborg, North Jutland, a part of Denmark Bo is ashamed to admit she has never heard of. 'What's the weather going to be like?' she asks Kirsten hopefully, scrolling her cursor over the budget airlines webpage. 'Terrible,' Kirsten replies, 'London is positively

Mediterranean by comparison, and of course it's November so it'll be dark seventeen hours a day. But no one goes to Denmark to get a tan. You need a change of scene and to blow away the cobwebs, and trust me, Skagen will do that. Besides, the summerhouse is cosy whatever the weather, and you never know who else will be around.' A few clicks later and there is no going back. And Bo's life plan is about to be entirely rewritten.

*The German Bestseller in the Late Nineteenth Century Sphere*

"Tomorrow belongs to

women," notes celebrated anthropologist Helen Fisher. In her explosive new book, *The First Sex*, she illustrates this enticing assertion. Drawing on original research, Fisher reveals how women and their natural talents are changing the world, making them ideal leaders and successful shapers of business and society--today and on into the twenty-first century.

Looking back to prehistoric times, Fisher shows how the special structure of the female brain enables women to do "web thinking" or "synthesis thinking," as compared to men's more linear or "step" thinking.

With lively anecdotes and fascinating stories, Fisher reveals how women's special talents--superior verbal abilities, people savvy, acute senses, healing techniques, and more--are geared to success in today's worlds of medicine, education, communications, law, philanthropy, and government. Changes in society--the growth of the communications economy and new trends in family--are also giving women an advantage: women's unique talents are especially needed in our modern age. This eye-opening book will change the way you

see yourself, your family, and the world around you, including every man and woman you meet.

The Outcast Simon and Schuster

Nadine Gordimer's first novel, published in 1953, tells the story of Helen Shaw, daughter of white middle-class parents in a small gold-mining town in South Africa. As Helen comes of age, so does her awareness grow of the African life around her. Her involvement, as a bohemian student, with young blacks

leads her into complex relationships of emotion and action in a culture of dissension.

A companion volume to Walter Benjamin's

(1892-1940) memoir *Berlin Childhood* circa 1900, *The "Berlin Chronicle"* Notices is now in a new translation by Carl Skoggard. The German-Jewish philosopher, theorist and critic Walter Benjamin began to ruminate on his comfortable Berlin childhood in 1932, not long before he would flee Germany for good to escape the Nazis. The resulting "Berlin Chronicle" notices--40 in all--do not result in a linear narrative but instead remain fragmentary recollections of Benjamin's young years, from his early

---

childhood to the threshold of adulthood. More generally, they are a series of profound explorations of memory and of the ways memory relates to place. Rich in and of themselves, these notices greatly illuminate "Berlin Childhood circa 1900," written by Benjamin months later. This translation, in a charming pocket-sized format, comes with an extensive commentary, a historical map of Berlin and numerous illustrations.

**Inequalities in Creative Cities** Vandenhoeck &

Ruprecht Psychoanalysis is perhaps the most personal, most intimate thing a human being can experience. The author of this volume reports on the successful psychoanalytic treatment of her own eating diseases stemming from childhood. The protagonists of this story are Max Hirtberg, the psychoanalyst, the author as well as the "artist" – the mental spin-off of the eating disorder itself. This tale documents the psychoanalytic treatment from the first to the final session. It is based on notes recorded after the respective session as well

as on the author's contemplations between sessions. At first, the reader is confronted by a number of flashbacks and descriptive passages, but as time goes on the dialogue between the psychoanalyst and the author gains in importance. In the end, the recollections and depictions of present scenes come to dominate the narrative. Benja Thieme has written a fascinating protocol of her own healing process, which serves to provide other afflicted persons and their analysts with new insights into the ways of eating disorders.

“In the honorable vein of elegant, gentleman thieves, comes Allmen, the colorful protagonist of Suter’s beautifully observed, deliciously fun novel” (Noah Charney, author of *The Museum of Lost Art*). Johann Friedrich von Allmen, a bon vivant of dandified refinement, has exhausted his family fortune. Forced to downscale, Allmen inhabits the garden house of his former Zurich estate, attended by his Guatemalan butler, Carlos.

When not reading novels by Balzac and Somerset Maugham, he plays jazz on a Bechstein baby grand. Allmen’s fortunes take a sharp turn when he meets Jojo, a stunning blonde whose lakeside villa contains five Art Nouveau bowls created by renowned French artist Émile Gallé and decorated with a dragonfly motif. Allmen, seeking to pay off mounting debts, absconds with the priceless bowls and embarks on a high-risk, potentially violent bid to cash them in. This is the first of a series of humorous, fast-paced detective novels devoted to a

memorable gentleman thief who, with his trusted sidekick, Carlos, creates an investigative firm to recover missing precious objects. “A rollicking good time . . . Bestselling Swiss author Martin Suter may have a classic on his hands in this contemporary crime novel, the first of a series featuring the memorable character of Johann Friedrich von Allmen, gentleman thief.” —The *Winnipeg Free Press* “Suter combines sleight-of-hand suspense with stunning art and slightly worn Old World elegance to create a smartly entertaining read . . . A classy

One little word is the secret reminder of what really matters in life: Hygge. CHRISTMAS is the perfect time to embrace it and THIS BOOK will show you how.

----- To me, hygge is: - Meeting my sister for a walk in the park, chatting, laughing and clowning around, as if we were children again. - Listening to

the rain on the roof with a cup of tea and my boyfriend next to me. - Drinking wine in my mum's garden - Enjoying a cup of coffee with good friends, that becomes a dinner, that becomes a late-night drink, because no one wants the evening to end.

-----  
Though we all know the feeling of hygge instinctively few of us ever manage to capture it for more than a moment. Now Danish actress and hygge aficionado Marie Tourell Søderberg - star of BBC 4's 1864 - has travelled the length and breadth of her home

country to create the perfect guide to cooking, decorating, entertaining and being inspired the hygge way. Full of beautiful photographs and simple, practical steps and ideas to make your home and life both comfortable and cheering all year round, this book is the easy way to introduce hygge into your life.
