As in his larger book, *A Sharp Seasoning of Truth* (2019), Pascal R. Politano does not focus totally on one subject, in this case, the

devastating pandemic; rather, in addition to that scourge he addresses the ancillary, overlapping problems within the state of the Union and not least our system of governance. Politano suggests strongly that we are overdue for a change in the management of our "capitalist democracy," to include revisions and clarifications in our Constitution, which has become obsolescent.

Selected by Today as a book "to ease kids' anxiety about coronavirus." We all need hope. Humans have an extraordinary capacity to battle through adversity, but only if they have something to cling onto: a belief or hope that maybe, one day, things will be better. This idea sparked The Great Realization. Sharing the truths we may find hard to tell but also celebrating the things—from simple acts of kindness and finding joy in everyday activities, to the creativity within us all—that have brought us together during lockdown, it gives us hope in this time of global crisis. Written for his younger brother and sister in response to the Covid-19 pandemic, Tomos Roberts's heartfelt poem is as timely as it is timeless. Its message of hope and resilience, of rebirth and renewal, has captured the hearts of children and adults all over the globe—and the glimpse it offers of a fairer, kinder, more sustainable world continues to inspire thousands every day. With Tomos Roberts's heartfelt poem and beautiful illustrations by award-winning artist Nomoco, *The Great Realization* is a profound work, at once striking and reassuring, reminding readers young and old that in the face of adversity there are still dreams to be dreamt and kindnesses to be shared and hope. There is still hope. We now call it The Great Realization and, yes, since then there have been many. But that's the story of how it started . . . and why hindsight's 2020.

One of Popsugar's Best New Books for Summer 2020 A thirty-year-old woman retraces her gap year through Ireland, France, and Italy to find love—and herself—in this hilarious and heartfelt novel. It's been seven years since Chelsea Martin embarked on her yearlong postcollege European adventure. Since then, she's lost her mother to cancer and watched her sister marry twice, while Chelsea's thrown herself into work, becoming one of the most talented fundraisers for the American Cancer Coalition, and with the exception of one annoyingly competent coworker, Jason Knightley, her status as most successful moneymaker is unquestioned. When her introverted mathematician father announces he's getting remarried, Chelsea is forced to acknowledge that her life stopped after her mother died and that the last time she can remember being happy, in love, or enjoying her life was on her year abroad. Inspired to retrace her steps—to find Colin in Ireland, Jean Claude in France, and Marcelino in Italy—Chelsea hopes that one of these three men who stole her heart so many years ago can help her find it again. From the start of her journey nothing goes as planned, but as Chelsea reconnects with her old self, she also finds love in the very last place she expected.

This original and panoramic book proposes that the underlying forces of demography and globalisation will shortly reverse three multi-decade global trends – it will raise inflation and interest rates, but lead to a pullback in inequality. “Whatever the future holds”, the authors argue, “it will be nothing like the past”. Deflationary headwinds over the last three decades have been primarily due to an enormous surge in the world's available labour supply, owing to very favourable demographic trends and the entry of China and Eastern Europe into the world's trading system. This book demonstrates how these demographic trends are on the point of reversing sharply, coinciding with a retreat from globalisation. The result? Ageing can be expected to raise inflation and interest rates, bringing a slew of problems for an over-indebted world economy, but is also anticipated to increase the share of labour, so that inequality falls. Covering many social and political factors, as well as those that are more purely macroeconomic, the authors address topics including ageing, dementia, inequality, populism, retirement and debt finance, among others. This book will be of interest and understandable to anyone with an interest on where the world's economy may be going.
