Upon her arrival in Tirana, Albania, in April 1994, the author found a city unlike any other she had experienced. Rotting trash was piled in the center of the streets, animals shared the rutted roads with cars, and housing, when it could be found, was crowded and crumbling. But she found a people full of optimism, particularly the women. Despite the subservient role forced by tradition on nearly all Albanian women, they have increasingly become the foundation upon which the country exists. Not only are they responsible for caring for extended households, these women are now also becoming vital parts of the country's economy. Most importantly, however, they maintain a faith in Albania that belies the country's turbulent past and widely predicted future.

Through interviews with over 200 Albanian women, this work is an insightful, often poignant, look at a country that remains a mystery to

most in the West.

The behavior of managers-such as the rewards they obtain for poor performance, the role of boards of directors in monitoring managers, and the regulatory framework covering the corporate governance mechanisms that are put in place to ensure managers' accountability to shareholder and other stakeholders-has been the subject of extensive media and policy scrutiny in light of the financial crisis of the early 2000s. However, corporate governance covers a much broader set of issues, which requires detailed assessment as a central issue of concern to business and society. Critiques of traditional governance research based on agency theory have noted its "under-contextualized" nature and its inability to compare accurately and explain the diversity of corporate

governance arrangements across different institutional contexts. The Oxford Handbook of Corporate Governance aims at closing these theoretical and empirical gaps. It considers corporate governance issues at multiple levels of analysis-the individual manager, firms, institutions, industries, and nations-and presents international evidence to reflect the wide variety of perspectives. In analyzing the effects of corporate governance on performance, a variety of indicators are considered, such as accounting profit, economic profit, productivity growth, market share, proxies for environmental and social performance, such as diversity and other aspects of corporate social responsibility, and of course, share price effects. In addition to providing a high level review and analysis of the existing literature, each chapter develops an agenda for further research on a specific aspect of corporate governance. This Handbook constitutes the definitive source of academic research on corporate governance, synthesizing studies from economics, strategy, international business, organizational behavior, entrepreneurship, business ethics, accounting, finance, and law.

'That which puzzled and fascinated me whenever I met Lasgush was this sensation of the impossible. It was impossible to get on with him as you did with others. The moment you were at him, or rather, the moment you knocked at his door, suddenly all became another thing. There was another logic, another code, other words, wrapped up in another meaning. .when you went to Lasgush's, it was more than going abroad. You believed you dropped somewhere beyond our time, beyond the everyday way of looking at things. One more step and it looked as if you would cross the borders of life and would find yourself in Dante's nothingness. .He was unpredictable, corrosive like acid, creepy, startling. His laugh was like as if beyond our life, mirthless, and his sadness had no grief. As for his anger, it was such as well, luxurious, cold, whereas his contempt was radiating from afar, as if adorned with silver.'

(Kadare, In My Studio. pp 207, 208, 209. My translation) -All this Saussurean lava of meaning has its own matchless 'crater' from where it erupts and reaches us time and again, endlessly. Lasgush's Word has its own individual suspension, chiselled by the hand of a true master. It is breathlessly succinct and, in all probability, on a par with the best ever created.

Lasgush says that his Word is: 'Mystery that burns in a thread of lightning.' (My Fiery Tongue)

The European Portfolio for Student Teachers of Languages (EPOSTL) is a document intended for students undergoing their initial teacher education which encourages them to reflect on the didactic knowledge and skills necessary to teach languages, helps them to assess their own didactic competences and enables them to monitor their progress and to record their experiences of teaching during the course of their teacher education. It was developed for the European Centre for Modern Languages of the Council of Europe by a team of teacher educators from Armenia, Austria, Norway, Poland and UK, assisted by student teachers and teacher educators from all 33

member states of the ECML. Building on insights from the Common European Framework of Reference and the European Language Portfolio as well as the European Commission-financed project European Profile for Language Teacher Education - A Frame of Reference (Profile), it seeks to help prepare students for their future profession in a variety of teaching contexts. Further, the EPOSTL can facilitate discussion of aims and curricula between teacher educators working within different national or European contexts. Through the Life Span The need for ongoing teacher development has been a recurring theme in the field of TESOL in recent years. Accessible and comprehensive, the book presupposes no prior knowledge of linguistics or language teaching, and each chapter includes reflective discussion questions to help the reader apply the strategies and procedures discussed. This book will be invaluable to postgraduate students of TESOL and applied linguistics, and in-service language teachers. Syntactic Theory OUP Oxford "Designing the School Curriculum" takes a practical, step-by-step approach, giving students the thorough

grounding in the process that leads to confident and effective practitioners. The author emphasizes the discretionary judgment of the individual teacher and acknowledges that the curriculum design process is completed only in the unique and spontaneous learning exchanges between students and teachers. Practical ideas on the formation of school purposes, the design of school-wide experiences, effective implementation, and the creation of responsive evaluative mechanisms help students to fulfill the goal of the text to design an authentic and effective curriculum. After an introductory chapter examining the role of the teacher in the design process and two brisk chapters leading students through the theoretical foundations of curriculum development, the text launches into the curriculum design process, giving a close look to each element. Hlebowitsh makes a valuable contribution to

the field with this new text, offering a contemporary treatment of classic curriculum design theory and, most importantly, equipping students to engage in effective curriculum design themselves.
