Seminar paper from the year 2005 in the subject English Language and Literature Studies - Literature, grade: 1.0, University of Duisburg-Essen, 6 entries in the bibliography, language: English, abstract: 1. Introduction Nursery rhymes have a long tradition in Great Britain. Adults still remember the short verses their parents have told them when they were children. So these rhymes are part of the English culture. In English lessons German pupils in primary school also have to learn about the English culture so that they get an impression of children's life in a foreign country. Cultural awareness is part of the curriculum. Nursery Rhymes are important

in English children's life. So German children have to learn about it. Rhyme, rhythm and chunks are useful for language learning. The rhymes help the children to get to know the English sentence structure. These arguments show that young people who want to become a primary teacher have to know about nursery rhymes. Where do they come from? What is so fascinating about them? Are they useful in the primary classroom? In this essay I would like to find out about it. 2. The origin of nursery rhymes Nursery rhymes are oral literature children are confronted with. First - when they are still babies - their mothers sing lullabies to them. Here the tune is more important than the words (vgl. Opie, 2002, page 177). *Learning Center Activities for*

This book presents a unique annotated collection of some 2000 playground games, rhymes, and wordplay of London children. It charts continuity and development in childlore at a time of major social and cultural change and offers a detailed snapshot of changes in the traditions and language of young people. Topics include: starting a

game; counting-out rhymes; games (without songs); singing and chanting games; clapping, skipping, and ball bouncing games; school rhymes and parodies; teasing and taunting; traditional belief and practice; traditional wordplay; and a concluding miscellany. Recorded mainly in the 1980s by primary schoolteacher Nigel Kelsey, transcribed verbatim from the children 's own words, and accompanied by extensive commentaries and annotation, the book sets a wealth of new information in the wider historical and contemporary context of existing studies in Britain, Ireland,

and other parts of the English-speaking world. This valuable new resource will open new avenues for research and be of particular interest to folklorists and linguists, as well as to those working across the full spectrum of social, cultural, and educational studies.

How can foreign language learning be developed in primary schools? In what ways can it be integrated into the primary classroom? *Modern Languages in the Primary School* tackles these questions, challenging current perceptions of primary modern languages, arguing that modern languages should be fully integrated into the primary curriculum, and looking at ways in which this can be achieved. The authors examine ways in which language-learning can be made a rich experience for all. They offer ideas on how to start language programmes in schools, or enhance those already in place. The book: - Features a 3-stage practical approach to teaching languages with different age groups in primary schools - Develops a coherent view of language learning and teaching - Refers to the KS2 Framework elements of oracy, literacy, intercultural understanding, knowledge about language and language learning

strategies - Contains a chapter which offers a theoretical introduction to content and language integrated learning (CLIL) - Refers to the QTS Standards and offers a short guide to internet-based and multimedia resources This book is for Primary ITE students and experienced teachers who are taking on the Modern Language coordinator role or teaching modern languages in primary schools for the first time. Love Nursery Songs Usborne Pub Limited Sometimes old memories come flooding back into one's mind with nostalgic effect. One day my brain felt like a giant elephant as I hummed old songs and rhymes that dated as far back as my days in nursery school. My

native country Tanzania was preoccupying me. I felt the urge to share these wonderful childhood memories. It was time to show my gratitude to all my teachers who made my school days a joy to remember and also to share the gift of memory with all the children in this universe. This book consists of nursery rhymes, songs and 20 Swahili folk tales translated into English. The stories were written and submitted by school children from Manundu Primary School in my hometown Korogwe. In Tanzania, oral lore is a common tradition of transmitting stories from one generation to another. I did not wish to see this knowledge get lost but get preserved in a form of written book. The nursery rhymes, songs and animal facts were contributed by me. These were inspired by memories from my school time experiences and also a wish to instill children with an appreciation for the wild animals, especially those belonging to the List of Threatened Animals. For every child who wishes to explore their wild and fun side, just flick through the pages of this book and get acquainted with the Swahili folklore and Tanzanian wildlife. Tanzania warmly welcomes you. "Karibu sana!"

Isan Father-in-Law is a biography of the author's father-in-law, Mr Rin. It draws on family and historical sources to uncover his career. Mr Rin is revealed as a teacher, farmer, community leader, rural development activist, conservationist, and father of eight girls. The book traces a family's journey from its Lao origins and traditions into modern Thailand; from the 19th century, through years of hunger (when frogs were a staple diet), the Japanese army's presence, communist insurgency and the Vietnam War, up to the

beginning of the 21st century. The reader will find a lot more than just an honourable hard-working northeast Thailand native named Mr. Rin. This journey through the life of Mr. Rin takes the reader into Thai history, culture, law, and background information skilfully woven into the story.

Seminar paper from the year 2015 in the subject English - Pedagogy, Didactics, Literature Studies, grade: 1,7, University of Koblenz-Landau, language: English, abstract: Looking back, many adults remember school not only as a place and time of friendships and personal development but also as a time of boredom, restrictions and even fear. It does not take today ' s neurobiological knowledge of the brain to guess that a boring and fearful atmosphere is not the best learning environment. Instead, children should be taught in a way that is inspiring, fun and caring. A good opportunity for providing this type of teaching is through language classes in primary school. Some years ago, the governments of the German federal states decided to establish English as a first foreign language to be taught from as early as first grade. This enables English

teachers to introduce children to the English language in a playful and natural way. Games, art activities, outdoor action and other activities can be combined with learning English. In addition, songs and rhymes can be used as age-appropriate teaching modules. This paper examines how songs and rhymes in primary school English classes support learning and focuses on vocabulary learning: Why and how is vocabulary taught? What is the role of songs and rhymes in teaching English? These two aspects will then lead to the main research question: How do songs and rhymes support vocabulary learning? The approach is to examine relevant literature on primary school education and English lessons with a focus on vocabulary learning and on songs and rhymes. According to the research concern, the paper first gives insight into vocabulary teaching (chapter 2). Next, it explores why and

how songs and rhymes can be part of teaching English. Chapter 4 then examines songs and rhymes as a means of teaching vocabulary. The conclusion summarizes the findings concerning the research question. Should the paper arrive at the result that songs and rhymes are a motivating and inspiring way of learning vocabulary, it could be an encouraging message for teachers to apply that method.

A steady best-seller and The Invisible String is reaching all over the World! OVER 400,000 copies sold! "That's impossible", said twins Jeremy & Liza after their Mom told them

they're all connected by this thing called an Invisible String. "What kind of string"? They asked with a puzzled look to which Mom replied, "An Invisible String made of love." That's where the story begins. A story that teaches of the tie that really binds. The Invisible String reaches from heart to heart. Does everybody have an Invisible String? How far does it reach, anyway? Does it ever go away? Read all about it! THE INVISIBLE STRING is a very simple approach to overcoming the fear of loneliness or separation with an imaginative flair that children can easily identify with and remember. Here is a warm and delightful lesson teaching young and old that we aren't ever really alone and reminding children (and adults!) that when we are loved beyond anything we can imagine.

"People who love each other are always connected by a very special String, made of love. Even though you can't see it with your eyes, you can feel it deep in your heart, and know that you are always connected to the ones you love." Thus begins this heart-warming and reassuring story that addresses the issue of "separation anxiety" (otherwise known as the sense of existential 'aleness') to children of all ages. Specifically written to address children's fear of being apart from the ones they love, The Invisible String delivers a particularly compelling message in today's uncertain times that though we may be separated from the ones we care for, whether through anger, or distance or even death, love is the unending connection that binds us all, and, by extension, ultimately binds every

person on the planet to everyone else. Parents and children everywhere who are looking for reassurance and reaffirmation of the transcendent power of love, to bind, connect and comfort us through those inevitable times when life challenges us! Let's tell the whole world that we are ALL connected by Invisible Strings! Adopted by Military Library Services & Foster Care Agencies Recommended by Bereavement Support Groups and Hospice Centers
