Using the letters Warren Buffett wrote to his partners between 1956 and 1970, a veteran financial advisor presents the renowned guru's "ground rules" for investing—guidelines that remain startlingly relevant today. In the fourteen years between his time in New York with value-investing guru Benjamin Graham and his start as chairman of Berkshire Hathaway, Warren Buffett managed Buffett Partnership Limited, his first professional investing partnership. Over the course of that time—a period in which he experienced an unprecedented record of success—Buffett wrote semiannual letters to his small but growing group of partners, sharing his thoughts, approaches, and reflections. Compiled for the first time and with Buffett's permission, the letters spotlight his contrarian diversification strategy, his almost religious celebration of compounding interest, his preference for conservative rather than conventional decision making, and his goal and tactics for bettering market results by at least 10% annually. Demonstrating Buffett's intellectual rigor, they provide a framework to the craft of investing that had not existed before: Buffett built upon the quantitative contributions made by his famous teacher, Benjamin Graham, demonstrating how they could be applied and improved. Jeremy Miller reveals how these letters offer us a rare look into Buffett's mind and offer accessible lessons in control and discipline—effective in bull and bear markets alike, and in all types of investing climates—that are the bedrock of his success. Warren Buffett's Ground Rules paints a portrait of the sage as a young investor during a time when he developed the long-term value-oriented strategy that helped him build the foundation of his wealth—rules for success every investor needs today.

Think Big: A Resource Manual for Library Programs That Attract Large Teen Audiences is a how-to manual for librarians who want to attract large groups of teens to their libraries with meaningful, memorable events. Large programs may seem to be impossible to attempt until the project is broken down into the separate parts needed. Think Big begins with those separate parts necessary to create a large event, starting with the logistics of time and place, the budget and how to find funding, making a timeline to make everything fall into place, communication among all of the people involved, marketing to the teen audience, troubleshooting with thorough preparation, and the importance of evaluations for reporting and for future planning. Part 2 is a collection of best practices. Seventeen successful, large programs are included, contributed by librarians who have dared to think big and made it work. Included are the book and author programs in school and public libraries. There are also creative programs about poetry and dance, STEM activities, pop culture, and school and work. Every section has two to four programs. Each program explains how the program began and evolved to the event it is today. A timeline, how the program was financed, who assisted to make every step successful, how the program was publicized, and how evaluations were collected and written are provided in detail to empower a librarian to tackle their first-time big program.
