Not everything that emerges in springtime is meant to come to life. The proverbial expression "Hope springs eternal" was coined by English poet and satirist Alexander Pope, meaning people will keep on hoping, no matter the odds. But what if the odds aren't in your favor? We decided to change the phrase into something a little more unsettling: Hope Screams Eternal. Spring hearkens thoughts of rebirth, rejuvenation, renewal, resurrection, and regrowth. What happens when creative minds nurture a more sinister mindset, awakening twisted and nefarious interpretations of the season of eternal hope? Authors, poets, and artists from around the globe accepted our challenge

to answer that question. Within these pages, they do their best to unsettle you as they explore the dark side of spring. The seeds of doubt they sow will burrow into your subconscious, lying in wait to hatch when you least expect it. So get cozy, settle into your comfiest seat, and relax (but don't let down your guard!) as we bring your hopes and fears to life. The science behind the traits and quirks that
drive creative geniuses to make spectacular
breakthroughs What really distinguishes the
people who literally change the
world--those creative geniuses who give us
one breakthrough after another? What
differentiates Marie Curie or Elon Musk
from the merely creative, the many one-hit
wonders among us? Melissa Schilling, one
of the world's leading experts on innovation,
invites us into the lives of eight
people--Albert Einstein, Benjamin Franklin,
Elon Musk, Dean Kamen, Nikola Tesla,
Marie Curie, Thomas Edison, and Steve
Jobs--to identify the traits and experiences
that drove them to make spectacular
breakthroughs, over and over again. While
all innovators possess incredible intellect,
intellect alone, she shows, does not create a
breakthrough innovator. It was their
personal, social, and emotional quirkiness
that enabled true genius to break
through--not just once but again and again.
Nearly all of the innovators, for example,
exhibited high levels of social detachment
that enabled them to break with norms, an
almost maniacal faith in their ability to
overcome obstacles, and a passionate
idealism that pushed them to work with
intensity even in the face of criticism or
failure. While these individual traits would
be unlikely to work in isolation--being
unconventional without having high levels
of confidence, effort, and goal directedness
might, for example, result in rebellious

behavior that does not lead to meaningful outcomes--together they can fuel both the ability and drive to pursue what others deem impossible. Schilling shares the science behind the convergence of traits that increases the likelihood of success. And, as Schilling also reveals, there is much to learn about nurturing breakthrough innovation in our own lives--in, for example, the way we run organizations, manage people, and even how we raise our children.

It means we're only getting started." Flynnigan Rider and the Hunt for the Red Pearl Twelve-year-old Eugene Fitzherbert needs a plan. It's not that he doesn't love his time in the orphanage that raised him? Miss Clare and the boys are his family. As is his best friend, Arnie, with whom he's often in cahoots, acting out passages from his favorite Flynnigan Rider books, or pretending they're Lance Archer, the iconic thief who takes from the rich to give to the poor. But Eugene knows that most orphans his age set off to make their own way, and the orphanage already doesn't have the means to support them all. Besides, he wants to see the world with Arnie, and maybe, just maybe find his parents someday. So when a traveling circus comes to the kingdom promising a life of adventure, brotherhood, and riches, Eugene jumps at the chance to join them. He even convinces Arnie to come too. But soon it becomes clear that there's more to this ragtag crew than meets the eye, and they may have a dubious plot in the works. It'll take new heroes--namely, Flynn Rider and Lance Strongbow, to save the day. Like sports, the victor is he who wants it more. Unlike sports, the loser earns extinction. Mankind has fought for survival over countless millennia, but nothing has threatened humanity's existence like the murderous Alien scourge. While some have tried to use the creatures' deadly abilities to serve their own selfish ends, no one can dance with the devil, and ultimately only one species must prevail. To that end, men have turned their own lethal instincts and cold intellect against the monsters, creating engineered plagues, cybernetic fighting suits, and even bogus android aliens, but survival rides not on technology, but on the primacy of the most deep-rooted, feral instincts. * Nearly four hundred story pages in full color, some never before collected! * Creators include horror novelist Chet Williamson, as well as John Arcudi, Doug Mahnke, Jon Wagner, Ronnie del Carmen, and many more! * Collectes Music of the Spears #1 - 4, Stronghold, Berserker #1 - 4, "Taste", and the "Mondo Pest" and "Mondo Heat" one-shots.
