A spine-chilling saga of virulent racism, human folly, and the ultimate triumph of scientific progress. For Chinese immigrant Wong Chut King, surviving in San Francisco meant a life in the shadows. His passing on March 6, 1900, would have been unremarkable if a city health officer hadn't noticed a swollen black lymph node on his groin—a sign of bubonic plague.

Empowered by racist pseudoscience, officials rushed to quarantine Chinatown while doctors examined Wong's tissue for telltale bacteria. If the devastating disease was not contained, San Francisco would become the American epicenter of an outbreak that had already claimed ten million lives worldwide. To local press, railroad barons, and elected officials, such a possibility was inconceivable—or inconvenient. As they mounted a cover-up to obscure the threat, ending

the career of one of the most brilliant scientists in the nation in the process, it fell to federal health officer Rupert Blue to save a city that refused to be rescued. Spearheading a relentless crusade for sanitation, Blue and his men patrolled the squalid streets of fast-growing San Francisco, examined gory black buboes, and dissected diseased rats that put the fate of the entire country at risk. In the tradition of Erik Larson and Steven Johnson, Randall spins a spellbinding account of Blue's race to

understand the disease and contain its spread—the only hope of saving San Francisco, and the nation, from a gruesome fate. Why We Sleep University of Chicago Press

Canada has no greater interpreter and champion than John Ralston Saul, who for years has been challenging our common notions of Canada. These four books examine our history and myths, our relationships and modern reality, and together brilliantly portray a unique and remarkable country. Reflections of a Siamese Twin In Reflections of a Siamese Twin, Saul turns his eye to an examination of Canada itself. Caught up in crises—political, economic, and social—Canada continues to flounder, unable to solve or even really identify its

problems. Instead, we assert absolute differences between ourselves: we are English or we are French; Natives or Europeans; early immigrants or newly arrived; from the east or from the west. Or we bow to ideologies and deny all differences in the name of nationalism, unity, or equality. In a startling exercise in reorientation, John Ralston Saul makes sense of Canadian myths—real, false, denied—and reconciles them with the reality of today's politics, culture, and economics. A Fair Country In this startlingly original vision of Canada, John Ralston Saul argues that Canada is a M é tis nation, heavily influenced and shaped by Aboriginal ideas: Egalitarianism, a

proper balance between individual and group, and a penchant for negotiation over violence are all Aboriginal values that Canada absorbed. An obstacle to our progress, Saul argues, is that Canada has an increasingly ineffective elite, a colonial non-intellectual business elite that doesn't believe in Canada. It is critical that we recognize these aspects of the country in order to rethink its future. The Comeback Historic moments are always uncomfortable, Saul writes in this impassioned argument, calling on all of us to embrace and support the comeback of Aboriginal peoples. This, he says, is the great issue of our time—the most important missing piece in the

---

building of Canada. The events that began late in 2012 with the Idle No More movement were not just a rough patch in Aboriginal relations with the rest of Canada. What is happening between Aboriginals and non-Aboriginals is not about guilt or sympathy or failure or romanticization of the past. It is about citizens' rights. It is about rebuilding relationships that were central to the creation of Canada. These relationships are just as important to its continued existence. Wide in scope but piercing in detail, *The Comeback* presents a powerful portrait of modern Aboriginal life in Canada illustrated by a remarkable selection of letters, speeches, and writings by Aboriginal leaders and

thinkers, showcasing the extraordinarily rich, moving, and stable indigenous point of view across the centuries. Louis-Hippolyte LaFontaine and Robert Baldwin Here, Saul argues that modern Canada did not begin in 1867; rather its foundation was laid years earlier by two visionary men, Louis-Hippolyte LaFontaine and Robert Baldwin. Opposites in temperament and driven by intense experiences of love and tragedy, together they developed principles and programs that would help unite the country. After the 1841 union, the two leaders of Lower and Upper Canada worked to create a reformist movement for responsible government run by

elected citizens instead of a colonial governor. During the "Great Ministry" of 1848 to 1851—despite violent opposition—they set about creating a more equitable nation. They revamped judicial institutions, established a public education system, made bilingualism official, and designed a network of public roads. Writing with verve and deep convictions, Saul restores these two extraordinary Canadians to rightful prominence. [PC Mag](#) Prentice Hall Ptr Short on time but keen on style? The book to read for fans of  
the movie Parasite. Criminal  
psychologist Seonkyeong  
receives an unexpected call  
one day. Yi Byeongdo, a  
serial killer whose gruesome  
murders shook the world,  
wants to be interviewed. Yi

Byeongdo, who has refused to unravel the pasts of the two  
speak to anyone until now,  
asks specifically for her.  
Seonkyeong agrees out of  
curiosity. That same day  
Hayeong, her husband ' s  
eleven-year-old daughter  
from a previous marriage,  
shows up at their door after  
her grandparents, with whom  
she lived after her mother

unnerved as the young girl  
says very little and acts  
strangely. At work and at  
home, Seonkyeong starts to  
new arrivals in her life and  
begins to see startling  
similarities. Hayeong looks at  
her the same way Yi  
Byeongdo does when he  
recounts the abuse he  
experienced as a child;  
Hayeong ' s serene  
expression masks a temper  
that she can ' t control. Plus,  
the story she tells about her  
grandparents ' death, and  
her mother ' s before that,  
deeply troubles Seonkyeong.  
So much so that Yi  
Byeongdo picks up on it and  
starts giving her advice.

Volume I dealt with "survival Japanese" for tourists and other short-term travelers and newcomers to Japan. Volume II, meanwhile, turns to the basics of Japanese syntax. The book is by no means only about grammar, however. Rather, it is

designed to help learners consolidate their understanding of syntactical structure through lessons that focus on how to talk about topics relevant to daily life. In addition to serving learners continuing from Volume I, Volume II will benefit those who have already studied beginning Japanese to some extent but wish to brush up on syntax. *Major Features of Japanese for Busy People II, Revised 3rd Edition*, will enable learners to progress smoothly through the equivalent of the latter half of

a typical first-year Japanese course while gradually building speaking and listening skills. Learners approaching mid-beginner status often find themselves suddenly faced with syntax and vocabulary much more complex than what they have studied before. Such grammar and vocabulary do not appear as frequently in everyday conversation as those words and structures they have learned up to this point, necessitating that they spend ample time on review. Moreover, learners at this

---

stage are expected to become familiar with verb tense and aspect, time expressions, conditional clauses, and other topics that require them to have a solid grasp of context and speaker intent if they are to fully understand the differences in meaning conveyed by each. Japanese for Busy People II helps overcome the above obstacles through grammar and content topics carefully selected to be appropriate to learners at this level of Japanese proficiency. The book is designed so that by

practicing talking about each topic, learners will gradually and effectively acquire sentence patterns and vocabulary related to that topic. Like Volume I, Volume II is organized into several large units, each covering topics grouped under a particular theme. In this way, the book enables learners to achieve a well-balanced understanding of grammar, sentence structure, and context.

The most important disciple a parent will make is within their own home, and yet this is the most difficult disciple to make. Family Discipleship by Matt Chandler and Adam Griffin helps readers develop a sustainable rhythm of gospel-centered discipleship through a guided framework focusing on moments of discipleship in 3 key areas: time (intentional time gathering your family around gospel activities or conversations), moments (leveraging opportunities throughout the day), and milestones (celebrating significant life events). Each

section provides parents with Scriptures to consider, questions to answer, structures to implement, and ideas to try out as they seek to see Christ formed in their children. Here is a book that begins with the end in mind, offering ideas and examples of what gospel-centered family discipleship looks like, helping parents design their own discipleship plan as they seek to raise children in the love and fear of the Lord.
