Transatlantic Relations in Times of Uncertainty

Martinus Nijhoff Publishers
This volume focuses on the question of how and why non-

state actors - consuls, missionaries, and spies - could play a role in premodern diplomatic relations. It highlights their multiple loyalties, their volatility, and the porous boundaries of diplomatic activity.

The Chinese Face of Jesus Christ BRILL
Challenging standard

interpretations of American dominance and French weakness in postwar Western Europe, Michael Creswell argues that France played a key role in shaping the cold war order. In the decade after the war, the U.S. government's primary objective was to rearm the Federal Republic of Germany within the framework of a European defense force--the European Defense Community. American and French officials differed, however, over the composition of the EDC and the rules governing its organization and use. Although U.S. pressure played a part, more decisive factors--in both internal French politics and international French concerns--ultimately led France to sanction the plan to rearm West Germany. Creswell sketches the successful French challenge to the United States, tracing the genuine, sometimes heated, debate between the two nations that ultimately resulted in security arrangements preferred by the French but acceptable to the Americans. Impressively

researched and vigorously argued, *A Question of Balance* advances significantly our understanding of power politics and the rise of the cold war system in Western Europe.

Ties between the United States (US) and the European Union (EU) rival those between any other pair of international actors. After all, no other regions of the world are as closely connected in economics, security and politics as Europe and the US. This comprehensive volume makes conceptual progress and empirical contributions in accounting for how EU-US relations have been impacted by a context of multiple EU crises alongside a parallel change in US policies. The authors find strong evidence to suggest that the transatlantic relationship is weakening. This is partly a consequence of the EU's internal policies, as it becomes more unified and autonomous of the US in some areas, while fragmenting in others. Most importantly, it is a consequence of the two actors' increasingly diverging perspectives and positions on international issues, institutions, norms and indeed the value of the transatlantic relationship. Although the long-term effects remain to be seen, it is likely that the cracks in the foundation of transatlantic relations will continue into the present and

foreseeable future. This book was originally published as a special issue of the *Journal of European Integration*.

The Educational Times, and Journal of the College of Preceptors UBC Press

This book continues the series *Select Proceedings of the European Society of International Law*, containing the proceedings of the Third Biennial Conference organised by ESIL and the Max Planck Institute for Comparative Public Law and International Law in 2008. The conference was entitled 'International Law in a Heterogeneous World', reflecting an idea which is central to the ESIL philosophy.

Heterogeneity is considered one of the pillars upon which Europe's contribution to international law is built and the subject was considered in a number of panels, including such diverse topics as migration, the history of international law, the rules on warfare and international environmental law.

akademija nauka i umetnosti This volume provides an annotated bibliography of the

Western and Chinese literature on Jesus Christ in China. It is a sequel to the interdisciplinary collection on the manifold faces and images of Jesus throughout Chinese history, from the Tang dynasty (618-907) to the present time. The present bibliography broadens and deepens the above-mentioned subject matter, and also points out aspects which have been addressed in the contributions and anthologies of the previous volumes of *The Chinese Face of Jesus Christ*, but which have not been treated thoroughly. Another aim of this bibliography is to initiate and enable further research, particularly in China. It includes bibliographical data from the beginning of the introduction of Christianity to China until the year 2013, occasionally also until 2014. A list of Key References enables the reader to identify important works on main topics related to Jesus Christ in China. Some examples of book covers and title pages are included in the section of Illustrations. Other volumes of the collection *The Chinese Face of Jesus Christ* are in preparation: Vol. 3c will present longer quotations from the sources listed in the present bibliography, Vol. 4b will contain a general index with glossary, and Vol. 5 will deal with the iconography of Jesus Christ in China.

**The American Journal of
 International Law** Martinus

 The Russia-Europe
 relationship is deteriorating,
 signaling the darkest era yet in
 security on the continent since
 the end of the Cold War. In
 addition, the growing influence
 of the Trump administration
 has destabilized the
 transatlantic security
 community, compelling
 Europe—especially the
 European Union—to rethink its
 relations with Russia. The
 volume editors' primary goal
 is to illuminate the nature of
 the deteriorating security
 relationship between Europe
 and Russia, and the key
 implications for its future.
 While the book is timely, the
 editors and contributors also
 draw out long-term lessons
 from this era of diplomatic
 degeneration to show how
 increasing cooperation
 between two regions can
 devolve into rapidly escalating
 conflict. While it is possible
 that the relationship between
 Russia and Europe can
 ultimately be restored, it is
 also necessary to understand
 why it was undermined in the
 first place. The fact that these
 transformations occur under
 the backdrop of an uncertain
 transatlantic relationship
 makes this investigation all the
 more pressing. Each chapter
 in this volume addresses three
 dimensions of the problem:

first, how and why the power
 status quo that had existed
 since the end of the Cold War
 has changed in recent years,
 as evidenced by Russia's
 newly aggressive posturing;
 second, the extent to which the
 EU's power has been enabled
 or constrained in light of
 Russia's actions; and third, the
 risks entailed in Europe's
 reactive power—that is, the
 tendency to act after-the-fact
 instead of proactively toward
 Russia—in light of the
 transatlantic divide under
 Trump.

 Volume II 1964 Tome II

Walter de Gruyter

This book analyses the
 possibilities and
 limitations that sub-
 national actors face when
 developing diplomatic
 activities in the Arctic

region. Sub-national actors, such as civil society groups and sub-national governments or administrations, have been active in international relations for decades. They face specific political and economic limitations on the international scene as non-sovereign entities. This book investigates how these actors have developed their international presence in the Arctic region. It analyzes the diplomatic activities of states, provinces, regional administrations, and multilateral forums made of sub-national governments to offer comparative insights on the strategies, interests, and activities of sub-national governments. Alaska, Scotland, Quebec, Yakutsk, and Indigenous People's organizations are among the examples covered in this book that have forged bilateral and multilateral relations to promote and defend their interests and values. Moreover, sovereign states are often using these sub-national actors to further their own interests, as exemplified in this book in how Russia

and China harnessed the potential of sub-national governments to align with their Arctic policies. The volume will be useful to academics and graduate students of Arctic politics, international relations, comparative politics, comparative federalism, foreign policy, and global governance.

VISCHER, Professor at

the University of Basel; - Les conséquences de l'intégration européenne sur le développement du droit international privé; par A.V.M. STRUYCKEN, professeur; a l'Université; catholique de Nimege. The Law Times Martinus Nijhoff Publishers Diplomatic interference carries considerable potential for disruption. In this context, diplomats have been accused of insulting behaviour, the funding of political parties, incitement to terrorism and even attempts to topple the host government. Reactions can be harsh: expulsions are common and, occasionally, diplomatic relations are severed altogether. But an evaluation under international law faces challenges. Often enough, charges of interference are made when legitimate interests are involved – for instance, when diplomats criticise the human rights record of their hosts. In such cases, diplomats may be able to invoke grounds which are recognised under international law. On the basis of more than 300 cases of alleged diplomatic interference and the practice of about 100 States and territories, *Diplomatic Interference and the Law* provides an examination of the main areas in which charges of meddling have arisen – such as lobbying activities, contacts with the opposition, propaganda, the use of threats and insults and the granting of asylum. It

analyses situations in which the sovereignty of the receiving State meets competing interests and offers solutions which avoid a conflict of norms. It concludes with useful advice for foreign offices and diplomatic agents and underlines the most efficient ways of dealing with situations of alleged interference. "A book that is here to stay! It is essential reading for diplomats, academics, journalists, students and everyone who has an interest in international law and justice. Based on rigorous research, Paul Behrens' book offers new and thoughtful perspectives on the Vienna Convention on Diplomatic Relations which we drafted in 1961. It demonstrates just how important it is to have a lawyer of his impartiality and integrity if we want to reach peaceful and lasting solutions in international relations. Diplomatic Interference and the Law has the makings of an instant classic, and I have no doubt that it will pave the way for the sorely needed reform of diplomatic law." Dr Nelson Iriñiz Casás, Vice President of the Committee of the Whole of the Vienna Conference on Diplomatic Relations in 1961; former Head of the diplomatic missions of Uruguay to Austria, Czechoslovakia, Hong Kong, Denmark and Sweden; author of *Corrupción en la ONU*. "Dr Behrens's book rigorously analyses the legal doctrine of non-interference by diplomats in their hosts' internal affairs, and how it may conflict with

legal obligations to combat, for example, denial of self-determination and breaches of human rights. Exhaustively researched and in accessible language, with copious, often entertaining examples, it will be an indispensable guide for diplomats. "Behrens on diplomatic interference" will be cited as the definitive authority on the matter for the foreseeable future. I recommend this book to diplomats, lawyers and the general reader: they will all read and refer to it with profit and immense pleasure." Sir Brian Barder KCMG, BA (Cantab.), is a former British ambassador to Ethiopia, Bénin and Poland and High Commissioner to Nigeria and Australia. "Paul Behrens' book breaks new ground. It is the first study to focus on the vexed question of diplomatic 'meddling' in the domestic affairs of the receiving State. It has heightened topicality as many Western governments in their concern to promote human rights and democracy urge their diplomats to be active in their support of civil society, particularly in countries with authoritarian governments. This book is replete with case studies covering the 50 years since the signature of the Vienna Convention and provides an invaluable pathway through this legal minefield." Il n'existe aucun équivalent dans aucune langue de l'entreprise exceptionnelle que représente la trilogie de Henry Laurens sur les origines du conflit israélo-arabe, dont voici le deuxième volume. C'est précisément durant le mandat britannique (1922-1947) que s'est noué l'antagonisme qui ensanglante le Proche-Orient : premières véritables implantations juives, achats de terres, dissolution de l'Empire ottoman, rôle prépondérant du pétrole dans l'économie de la région... Jérusalem est plus que jamais un symbole. En

1917, la déclaration Balfour promet la création d'un « foyer national juif ». La guerre mondiale réduit très fortement l'immigration juive. Même après les abominations de la Shoah, la création d'un État d'Israël mettra du temps à se réaliser. Ni les Arabes ni les Juifs ne peuvent se montrer satisfaits des vingt-cinq années du mandat. Agrégé d'histoire, arabisant, professeur à l'INALCO (Langues-O) et depuis 2001 directeur du Centre d'études sur le Proche-Orient à Beyrouth, Henry Laurens est spécialiste du Moyen-Orient.
