Fox. The entire world knows Michael J. Fox as Marty McFly, the teenage sidekick of Doc Brown in Back to the Future; as Alex P. Keaton in Family Ties; as Mike Flaherty in Spin City; and through numerous other movie roles and guest appearances on shows such as The Good Wife and Curb Your Enthusiasm. Diagnosed at age 29, Michael is equally engaged in Parkinson's advocacy work, raising global awareness of the disease and helping find a cure through The Michael J. Fox Foundation for Parkinson's Research, the world's leading non-profit funder of PD science. His two previous bestselling memoirs, Lucky Man and Always Looking Up, dealt with how he came to terms with the illness, all the while exhibiting his iconic optimism. His new memoir reassesses this outlook, as events in the past decade presented additional challenges. In No Time Like the Future: An Optimist Considers Mortality, Michael shares personal stories and observations about illness and health, aging, the strength of family and friends, and how our perceptions about time affect the way we approach mortality. Thoughtful and moving, but with Fox's trademark sense of humor, his book provides a vehicle for reflection about our lives, our loves, and our losses. Running through the narrative is the drama of the medical madness Fox recently experienced, that included his daily negotiations with the Parkinson's disease he's had since 1991, and a spinal cord issue that necessitated immediate surgery. His challenge to learn how to walk again, only to suffer a devastating fall, nearly caused him to ditch his trademark

optimism and “get out of the lemonade business altogether.”

Does he make it all of the way back? Read the book.

From the bestselling author of the "dazzling historical saga" (The Washington Post), Moloka'i, comes the irresistible story of a young immigrant bride in a ramshackle town that becomes a great modern city "In Korea in those days, newborn girls were not deemed important enough to be graced with formal names, but were instead given nicknames, which often reflected the parents' feelings on the birth of a daughter: I knew a girl named Anger, and another called Pity. As for me, my parents named me Regret." Honolulu is the rich, unforgettable story of a young "picture bride" who journeys to Hawai'i in 1914 in search of a better life. Instead of the affluent young husband and chance at an education that she has been promised, she is quickly married off to a poor, embittered laborer who takes his frustrations out on his new wife. Renaming herself Jin, she makes her own way in this strange land, finding both opportunity and prejudice. With the help of three of her fellow picture brides, Jin prospers along with her adopted city, now growing from a small territorial capital into the great multicultural city it is today. But paradise has its dark side, whether it's the daily struggle for survival in Honolulu's tenements, or a crime that will become the most infamous in the islands' history... With its passionate knowledge of people and places in Hawai'i far off the tourist track, Honolulu is most of all the spellbinding tale of four women in a new world, united by dreams, disappointment, sacrifices, and friendship.

Millions of words have been spent in our quest to explain men's seemingly never-ending dominance in boardrooms, in parliaments, in the bureaucracy and in almost every workplace. So why is gender inequality still such a pressing issue? Wage inequality between men and women seems one of the intractables of our age. Women are told they need to back themselves more, stop marginalising themselves, negotiate better, speak up, support each other, strike a balance between work and home. This searing book argues that insisting that women fix themselves won't fix the system, the system built by men. Catherine Fox does more than identify and analyze the nature of the problem. Her book is an important tool for male leaders who say they want to make a difference. She throws down the gauntlet, showing how business, defence, public service and community leaders might do it, rather than just talk about it. She shows that not only will this be better for women but for productivity as well, not to mention men and women's health and happiness at home and at work.
