The Ethical Sellout University of Toronto Press

We all fear selling out. Yet we all face situations that test our ideals and values with no clear right answer. In a world where compromise is an essential aspect of life, authors Lily Zheng and Inge Hansen make the bold claim that everyone sells out—and that the real challenge lies in doing so ethically. Zheng and Hansen share stories from a diversity of people who have found their own answers to this dilemma and offer new ways to think about marginalization, privilege, and self-interest. From these stories, they pull out teachable skills for taking the step from selling out to selling out ethically. The Ethical Sellout is for all those committed to maintaining their integrity in a messy world.

As a black child growing up in inner-city neighborhoods in Philadelphia and Los Angeles, John Baugh witnessed racial discrimination at a young age and began to notice correlations between language and race. While attending

college he worked at a Laundromat serving African Americans who were often subjected to mistreatment by the police. His observations piqued his curiosity about the ways that linguistic diversity might be related to the burgeoning Civil Rights movement for racial equality in America. Baugh pursued these ideas whilst traveling internationally only to discover alternative forms of linguistic discrimination in Europe, Africa, Asia, Australia, the Caribbean and South America. He coined the phrase 'linguistic profiling' based on experimental studies of housing discrimination, and expanded upon those findings to promote equity in education, employment, medicine and the law. This book is the product of the culmination of these studies, devoted to the advancement of equality and justice globally.

The authors conclude that effective administration focuses on organizational rulemaking; detecting, investigating and disciplining rule violations; circumscribing the "code of silence" that prohibits police from reporting the misconduct of their colleagues; and understanding the influence of public expectations and agency history.

CliffsQuickReview Sociology Law Journal Press
This volume brings together eight essays (all but one previously unpublished) that offer innovative strategies for studying society and culture in eighteenth-century France. Divided into three sections, the chapters map out current research paths in social, cultural, and political history. The authors engage the most heated subjects of debate in the field today, including the changing nature of political life in the age of Enlightenment, the role of public opinion in undermining absolutism, and the impact of gender on social relationships and political language in the late eighteenth century. They demonstrate a marked interest in the lives of ordinary and humble French people, finding that exclusion from the main corridors of power fostered cunning and resourcefulness, not political indifference or ignorance. The articles encompass the Old Regime and the revolutionary era without falling into the teleological trap of using the former as the backdrop for the events of 1789. On the contrary, many of the authors consciously avoid this bias by investigating the Old Regime in its own right or by consciously linking the pre- and postrevolutionary eras. This decision alone marks an important turning of the tide. By establishing a dialogue between the Old Regime and the revolution, this volume implicitly pays homage to those historians who insist on the structural continuities that underlay the rupture of 1789. Contributors are Cissie Fairchilds, Christine

Adams, Orest Ranum, Lisa Jane Graham, Harvey Chisick, John Garrigus, Lenard Berlanstein, and Jack Censer.
