Evagrius of Pontus (ca. 345-399) was a Greek-speaking monastic thinker and Christian theologian whose works formed the basis for much later reflection on monastic practice and thought in the Christian Near East, in Byzantium, and in the Latin West. His innovative collections of short chapters meant for meditation, scriptural commentaries in the form of scholia, extended discourses, and letters were widely translated and

copied. Condemned posthumously by two ecumenical councils as a heretic along with Origen and Didymus of Alexandria, he was revered among Christians to the east of the Byzantine Empire, in Syria and Armenia, while only some of his writings endured in the Latin and Greek churches. A student of the famed bishop-theologians Gregory of Nazianzus and Basil of Caesarea, Evagrius left the service of the urban church and settled in an Egyptian monastic compound. His teachers were veteran monks schooled in the tradition of Clement of Alexandria, Origen, and Anthony, and he enriched their legacy with the experience of the desert and with insight drawn from the entire Greek philosophical tradition, from Plato and Aristotle through Iamblichus. Evagrius and His Legacy brings together essays by eminent scholars

who explore selected aspects of Evagrius's life and times and address his far-flung and controversial but long-lasting influence on Latin, Byzantine, and Syriac cultures in antiquity and the Middle Ages.

Touching on points relevant to theology, philosophy, history, patristics, literary studies, and manuscript studies, *Evagrius and His Legacy* is also intended to catalyze further study of Evagrius within as large a context as possible.

In this re-evaluation of the
writings of Joseph Conrad,
Michael Greaney places
language and narrative at
the heart of his literary
achievement. A trilingual
Polish expatriate, Conrad
brought a formidable
linguistic self-
consciousness to the
English novel; tensions
between speech and
writing are the defining
obsessions of his career.
He sought very early on to
develop a 'writing of the
voice' based on oral or
communal modes of
storytelling. Greaney
argues that the 'yarns' of
his nautical raconteur
Marlow are the most

challenging expression of
this voice-centred
aesthetic. But Conrad's
suspicion that words are
fundamentally
untrustworthy is present in
everything he wrote. The
political novels of his
middle period represent a
breakthrough from
traditional storytelling into
the writerly aesthetic of
high modernism. Greaney
offers an examination of a
wide range of Conrad's
work which combines
recent critical approaches
to language in post-
structuralism with an
impressive command of
linguistic theory.

There is a tendency in modern scholarship to describe the Renaissance Humanists merely as readers—as interpreters happily absorbed within the bounds of their chosen classical texts. In *Theory as Practice*, Nancy

Struever contests this accepted notion; by focusing on ethical inquiry, she presents the Humanists as engaged in subtle, innovative moral work. Struever argues that the accomplishment of five major Renaissance figures—Petrarch, Nicolaus Cusanus, Lorenzo Valla, Machiavelli, and Montaigne—was to consider theory as practice and thus engage the ethics of inquiry. She notes three stages of investigation, the first represented by Petrarch, who "relocated" ethical inquiry from a theoretical realm to a familiar practice responsive to daily experience. Next, Struever describes how Cusanus and Valla assume Petrarch's relocation, yet confect ethics into discursive disciplines. Finally, while both Machiavelli and Montaigne produced strong revisions of discipline, they considered the problems of

addressing the non-inquirer as well. Struever urges modern readers to employ both rhetorical and philosophical analysis to reveal these Humanists' aggressive tactics of presentation as well as their novel disciplinary reorientation. By doing so, she suggests, we discover how Renaissance ethical inquiry illuminates, and is illuminated by, the modern ethical theory of such philosophers as Peirce, Wittgenstein, Bernard Williams, and Quine.

The Oxford Handbook of Shakespeare and Embodiment brings together 42 of the most important scholars and writing on the subject today.

Extending the purview of feminist criticism, it

offers an intersectional paradigm for considering representations of gender in the context of race, ethnicity, sexuality, disability, and religion. In addition to sophisticated textual analysis drawing on the methods of historicism, psychoanalysis, queer theory, and posthumanism, a team of international experts discuss Shakespeare's life, contemporary editing practices, and performance of his plays on stage, on screen, and in the classroom. This theoretically sophisticated yet elegantly written Handbook includes an editor's Introduction that provides a

comprehensive overview of current debates.

An Analysis of the System of the Bible Society Taylor & Francis

The question of coherence in Goethe's novels, which, like Faust, compelled his attention throughout his creative life, has only recently occupied a few critics. Professor Muenzer's study offers the most comprehensive effort of this kind by examining the problematic nature of self-definition through the four novels and its emergence as a discursive process of the imagination. The self of these texts, Muenzer suggests, evolves as a symbolic construct that records a patter of pursuit for each of their protagonists and orients the reader toward three

basic goals of human aspiration. Thus, Werther aspires to purposefulness as a center of teleological fulfillment, while the hero of Wilhelm Meister's Apprenticeship refers to an ideological center of participation in his social desire. Eduard, in The Elective Affinities, presumes to occupy a center of archaeological power through his typically self-assertive strategies. In the last of his novels, Wilhelm Meister's Journeymanship, Goethe articulates the need to balance all such self-involved behavior with an attitude of self-denial. Apparently, the mind can orient itself through centers of purpose, order, and power, but it must also recognize the illusion of their attainment. Identity does

not involve a substantive presence, and the result of self-definition for Goethe is interpretive work. Each of Professor Muenzer's interpretations has been guided by this premise. The interests of all of Goethe's novelistic protagonists, he concludes, "serve as orienting postures toward goals that cannot be literally achieved." Consequently, symbolic resolutions are proposed. These then introduce new problems as points of departure in subsequent works. The hidden agenda of Goethe's work as a novelist is a self that exists as a textual problem, a series of interpretive moves that endlessly defer the attainment of self presence by supplementing each other in narrative fictions. "The accepted historical picture of Frederick William Faber has often been that of a portly, ebullient, over-emotional individual, remembered chiefly as the founder of the

London Oratory, for his disagreements with John Henry Newman, and for his prolific output of hymns (often triumphalist and occasionally sentimental). There is, however, a more profound side to Faber, which made him, in the opinion of one of his contemporaries, Henry Edward Manning, 'a great servant of God'." "This book presents us with the diverse, and often contradictory, strands within Faber's personal spirituality, and identifies the spiritual and intellectual processes that characterised his movement from Calvinistic Anglicanism to Ultramontane Roman Catholicism. It also

explores areas of Faber's life that have not been discussed in detail before; his years within the Church of England, university life at Oxford, conversion to Roman Catholicism, foundation of the religious Order the Brothers of the Will of God, and the London Oratory."--BOOK JACKET.
