Routledge Handbook of American Foreign Policy

Routledge

Providing a comprehensive and cutting edge examination of this important continent, Routledge Handbook of African Politics surveys the key debates and controversies, dealing with each of the major issues to be found in Africa's politics today. Structured into 6 broad areas, the handbook features over 30 contributions focused around: The State Identity Conflict Democracy and Electoral Politics Political Economy & Development International Relations Each chapter deals with a specific topic, providing an overview of the main arguments and theories and explaining the empirical evidence that they are based on, drawing on high-profile cases such as the Democratic Republic of Congo, Kenya, Nigeria, Somalia, South Africa, Rwanda and Zimbabwe. The Handbook also contains new contributions on a wide range of topical issues, including terrorism, the growing influence of China, civil war, and transitional justice, making it required reading for non-specialists and experts alike. Featuring both established scholars and emerging researchers, this is a vital resource for all students of African Studies, democratization, conflict resolution and Third World politics.

The Routledge Handbook of International Local Government

Routledge

Ethics and International Relations (IR), once considered along the margins of the IR field, has emerged as one of the most eclectic and interdisciplinary research areas today. Yet the same diversity that enriches this field also makes it a difficult one to characterize. Is it, or should it only be, the social-scientific pursuit of explaining and understanding how ethics influences the behaviours of actors in international relations? Or, should it be a field characterized by what the world should be like, based on philosophical, normative and policy-based arguments? This Handbook suggests that it can actually be both, as the contributions contained therein demonstrate how those two conceptions of Ethics and International Relations are inherently linked. Seeking to both provide an overview of the field and to drive debates forward, this Handbook is framed by an opening chapter providing a concise and accessible overview of the complex history of the field of Ethics and IR, and a conclusion that discusses how the field may progress in the future and what subjects are likely to rise to prominence. Within are 44 distinct and original contributions from scholars teaching and researching in the field, which are structured around 8 key thematic sections: Philosophical Resources International Relations Theory Religious Traditions International

Security and Just War Justice, Rights and Global Governance International Intervention Global Economics Environment, Health and Migration Drawing together a diverse range of scholars, the Routledge Handbook of Ethics and International Relations provides a cutting-edge overview of the field by bringing together these eclectic, albeit dynamic, themes and topics. It will be an essential resource for students and scholars alike.

Routledge Handbook of International Political Sociology Edward Elgar Publishing

The Routledge Handbook of International Law provides a definitive global survey of the interaction of international politics and international law. Each chapter is written by a leading expert and provides a state of the art overview of the most significant areas within the field. This highly topical collection of specially commissioned papers from both established authorities and rising stars is split into four key sections: The Nature of International Law including the interaction between the disciplines of International Law and International Relations The Evolution of International Law progressing from the ancient world to present day. Law and Power in International Society discussing topical issues such as the war in Iraq and the international criminal court Key Issues in International Law including international refugee law, indigenous rights, intellectual property, trade and the challenges presented by "new terrorism". A comprehensive survey of the state of the discipline, The Routledge Handbook of International Law is an essential work of reference for scholars and practitioners of international Law.

Routledge Handbook of International Law Routledge

This handbook presents a comprehensive, concise and accessible overview of the field of Historical International Relations (HIR). It summarizes and synthesizes existing contributions to the field while presenting central themes, approaches and methodologies that have driven the development of HIR, providing the reader with a sense of the diversity and research dynamics that are at the heart of this field of study. The wide range of topics covered are grouped under the following headings: Traditions: Demonstrates the wide variety of approaches to HIR. Thinking International Relations Historically: Different ways of thinking IR historically share some common concerns and areas for further investigation. Actors, Processes and Institutions: Explores the processes, actors, practices, and institutions that constitute the core objects of study of many HIR scholars. Situating Historical International Relations: Critically reflects about the situatedness of our objects of study. Approaches: Examines how HIR scholars conduct and reflect about their research, often in dialogue with a variety of perspectives from cognate disciplines. Summarizing key contributions and trends while also sketching out challenges for future inquiry, this is an invaluable resource for students, academics and researchers from a range of disciplines, particularly International Relations, global history, political science, history, sociology, anthropology, peace studies, diplomatic studies, security studies, international political thought, political geography, international law.

Routledge Handbook of Religion and Politics Routledge Providing a comprehensive overview of Russia's foreign policy directions, this handbook brings together an international team of scholars to develop a complex treatment of Russia's foreign policy. The chapters draw from numerous theoretical traditions by incorporating ideas of domestic institutions, considerations of national security and international recognition as sources of the nation's foreign policy. Covering critically important subjects such as Russia's military interventions in Ukraine and

Syria, the handbook is divided into four key parts: Part I explores the social and material conditions in which Russia's foreign policy is formed and implemented. Part II investigates tools and actors that participate in policy making including diplomacy, military, media, and others. Part III provides an overview of Russia's directions towards the United States, Europe, Asia, the Middle East, Eurasia, and the Arctic. Part IV addresses the issue of Russia's participation in global governance and multiple international organizations, as well as the Kremlin's efforts to build new organizations and formats that suit Russia's objectives. The Routledge Handbook of Russian Foreign Policy is an invaluable resource to students and scholars of Russian Politics and International Relations, as well as World Politics more generally.

Routledge Handbook of Critical International Relations
Routledge

The Routledge Handbook to Global Political Economy provides a comprehensive guide to how Global Political Economy (GPE) is conceptualized and researched around the world. Including contributions that range from traditional International Political Economy (IPE) to GPE approaches, the Handbook gathers the investigations, varying perspectives and innovative research of more than sixty scholars from all over the world. Providing undergraduates, postgraduates, teachers and researchers with a complete set of traditional, contending and regional perspectives, the book explores current issues, conceptual tools, key research debates and different methodological approaches taken. Structured in five parts methodologically correlated, the book presents GPE as a field of global, regional and national research:

- historical waves and diverse ontological axes;
- major theoretical perspectives;
- beyond traditional perspectives;
- regional inquiries;
- research arenas.

Carefully selected contributions from both established and upcoming scholars ensure that this is an eclectic, pluralist and multidisciplinary work and an essential resource for all those with an interest in this complex and rapidly evolving field of study.

The Routledge Handbook of Scandinavian Politics
Routledge

This Handbook brings together 40 of the world's leading scholars and rising stars who study international law from disciplines in the humanities – from history to literature, philosophy to the visual arts – to showcase the distinctive contributions that this field has made to the study of international law over the past two decades. Including authors from Australia, Canada, Europe, India, South Africa, the UK and the USA, all the contributors engage the question of what is distinctive, and critical, about the work that has been done and that continues to be done in the field of 'international law and the humanities'. For many of these authors, answering this question involves reflecting on the work they themselves have been contributing to this path-breaking field since its inception at the end of the twentieth century. For others, it involves offering models of the new work they are carrying out, or else reflecting on the future directions of a field that has now taken its place as one of the most important sites for the study of international legal practice and theory. Each of the book's six parts foregrounds a different element, or cluster of elements, of international law and the humanities, from an attention to the office, conduct and training of the jurist and jurispudent (Part 1); to scholarly craft and technique (Part 2); to questions of authority and responsibility (Part 3); history and historiography (Part 4); plurality and community

(Part 5); as well as the challenge of thinking, and rethinking, international legal concepts for our times (Part 6). Outlining new ways of imagining, and doing, international law at a moment in time when original, critical thought and practice is more necessary than ever, this Handbook will be essential for scholars, students and practitioners in international law, international relations, as well as in law and the humanities more generally.

Routledge Handbook of Public Policy Routledge

This book presents the enduring debates and emerging challenges in crime and justice studies from an international and multi-disciplinary perspective.

Routledge Handbook of Russian Politics and Society Routledge
This handbook examines the regional and international dynamics of the Middle East. It challenges the state society dichotomy to make sense of decision-making and behavior by ruling regimes. The 33 chapter authors include the world's leading scholars of the Middle East and International Relations (IR) in order to make sense of the region. This synthesis of area studies expertise and IR theory provides a unique and rigorous account of the region's current dynamics, which have reached a crisis point since the beginning of the Arab Spring. The Middle East has been characterized by volatility for more than a century. Although the region attracts significant scholarly interest, IR theory has rarely been used as a tool to understand events. The constructivist approach in IR highlights the significance of state identity, shaped by history and culture, in making sense of international relations. The authors of this volume consider how IR theory can elucidate the patterns and principles that shape the region, in order to provide a rigorous account of the contemporary challenges of the Middle East. The Routledge Handbook of International Relations in the Middle East provides comprehensive coverage of International Relations issues in the region. Thus, it offers key resources for researchers and students interested in International Relations and the Middle East.

Routledge Handbook of Russian Foreign Policy Routledge

In the early twenty-first century, key public health issues and challenges have taken centre stage on the global scene, and health has been placed at the heart of our collective aspirations for human development and well-being. But significant debate exists not only about the causes, but also about the possible solutions for nearly all of the most important global health challenges. Competing visions of the values and perspectives that should underlie global health policies have emerged, ranging from an emphasis on cost effectiveness and resource constraints on one extreme, to new calls for health and human rights, and renewed calls for health and social justice on the other. The role of different intergovernmental agencies, bilateral or unilateral donors, public or private institutions and initiatives, has increasingly been called into question, whilst the spread of neoliberal policies and programmes, and existing international trade regimes and intellectual property rights, are deeply implicated in relation to global health responses. This volume critically evaluates how the global health industry has evolved and how the interests of diverse political and economic stakeholders are shaping the context of a rapidly changing institutional landscape. Bringing together leading authors from across the world, the Handbook's eight sections explore:

- Critical perspectives on global health
- Globalisation, neoliberalism, and health systems
- The changing shape of global health governance
- Development assistance and the politics of global health
- Scale-up, scale-down, and the sustainability of global health programmes
- Intellectual property rights, trade relations, and global health
- Humanitarian emergencies and global health politics
- Human rights, social justice, and global health

The Routledge Handbook on the Politics of Global Health addresses both the emerging issues and conceptualisations of the political strategies, policy-making processes, and global governance of

global health, along with expanding upon and highlighting the critical priorities in this rapidly evolving field. It provides an authoritative overview for students, practitioners, researchers, and policymakers working in or concerned with the politics of public health around the globe.

The Routledge Handbook of East European Politics Routledge

This Handbook provides a comprehensive global survey of the policy process. Written by an outstanding line up of distinguished scholars and practitioners, the Handbook covers all aspects of the policy process including: Theory - from rational choice to the new institutionalism; Frameworks - network theory, advocacy coalition and development models; Key stages in the process - formulation, implementation and evaluation; Agenda setting and decision making; The roles of key actors and institutions. This is an invaluable resource for all scholars, graduate students and practitioners in public policy and policy analysis.-- Publisher description.

Routledge Handbook of Political Management Routledge
Engagements with the postcolonial world by International Relations scholars have grown significantly in recent years. The Routledge Handbook of Postcolonial Politics provides a solid reference point for understanding and analyzing global politics from a perspective sensitive to the multiple legacies of colonial and imperial rule. The Handbook introduces and develops cutting-edge analytical frameworks that draw on Black, decolonial, feminist, indigenous, Marxist and postcolonial thought as well as a multitude of intellectual traditions from across the globe. Alongside empirical issue areas that remain crucial to assessing the impact of European and Western colonialism on global politics, the book introduces new issue areas that have arisen due to the mutating structures of colonial and imperial rule. This vital resource is split into five thematic sections, each featuring a brief, orienting introduction: Points of departure Popular postcolonial imaginaries Struggles over the postcolonial state Struggles over land Alternative global imaginaries Providing both a consolidated understanding of the field as it is, and setting an expansive and dynamic research agenda for the future, this handbook is essential reading for students and scholars of International Relations alike.
Routledge Handbook of International Law and the Humanities
Routledge

This Handbook brings together scholars whose essays discuss significant issues with regard to international organization as a process and international organizations as institutions.

Although the focus is on intergovernmental organizations (IGOs), non-governmental organizations (NGOs) are discussed where relevant. The handbook is divided into six parts:

Documentation, Data Sets and Sources International Secretariats as Bureaucracies Actors within International Bureaucracies Processes within International Bureaucracies Challenges to International Organizations, and Expanding International Architectures. The state-of-the-art articles are meant to encourage current and future generations of scholars to enjoy working in and further exploiting the field and are also of great interest to practitioners of international organization and global governance

Routledge Handbook on the European Union and International Institutions
Routledge

The Routledge Handbook of International Local Government conducts a rigorous, innovative and distinctive analysis of local government within a comparative, international context. Examining the subject matter with unrivalled breadth and depth, this handbook shows how different cultures and

countries develop different institutions, structures and processes over time, yet that all have some features in common – the most obvious of which is the recognition that some decisions are better made, some services better delivered, and some engagement with the state better organised if there is structured organisational expression of the importance of the local dimension of all these factors . Thematically organised, it includes contributions from international experts with reference to the wider context in terms of geographies, local government modes, recent developments and possible further lines of research. It has a wide academic appeal internationally and will steer a course between the two dimensions of mono-jurisdictional studies and ‘ cataloguing ’ forms of comparison. The Routledge Handbook of International Local Government will be essential reading and an authoritative reference for scholars, students, researchers and practitioners involved in, and actively concerned about, research on local government.

Routledge Handbook of Ethics and International Relations Routledge

This handbook provides a comprehensive global survey of the politics of technology. Written by an outstanding line up of distinguished scholars in the field, the handbook covers all aspects of the relationship between politics and technology including: Demand and support for new technologies and innovation by the state The effects of technology policies Technology development and innovation difference between various countries and regions Policy instruments and techno-industrial innovation Dynamism and change as outcomes of government policies Driving forces for science and innovative development Forming the basis of this handbook are examples of regional development, country studies and a rich variety of technologies, as well as topical issues such as divergent political interests in relation to technology and the economic exploitation of technologies. Employing a comparative and interdisciplinary approach in order to analyse the interplay between government activities and the development of new technologies, this handbook will be an invaluable resource for all students, scholars and practitioners working in the politics of technology, public policy and policy analysis.

The Routledge Handbook of the Political Economy of the Environment Routledge

The Routledge Handbook on Spaces of Urban Politics provides a comprehensive statement and reference point for urban politics. The scope of this handbook ’ s coverage and contributions engages with and reflects upon the most important, innovative and recent critical developments to the interdisciplinary field of urban politics, drawing upon a range of examples from within and across the Global North and Global South. This handbook is organized into nine interrelated sections, with an introductory chapter setting out the rationale, aims and structure of the Handbook, and short introductory commentaries at the beginning of each part. It questions the eliding of ‘ urban politics ’ into the ‘ politics of the city ’ , reconsidering the usefulness of the distinction between ‘ old ’ and ‘ new ’ urban politics, considering issues of ‘ class ’ , ‘ gender ’ , ‘ race ’ and the ways in which they intersect, appear and reappear in matters of urban politics, how best to theorize the roles of capital, the state and other actors, such as social movements, in the production of the city and, finally, issues of doing urban political research. The various chapters explore the issues of urban politics of economic development, environment and nature in the city, governance and planning, the politics of labour as well as living spaces. The concluding sections of the Handbook examine the politics over alternative visions of cities of the future and provide concluding discussions and reflections, particularly on the futures for

urban politics in an increasingly 'global' and multidisciplinary context. With over forty-five contributions from leading international scholars in the field, this handbook provides critical reviews and appraisals of current conceptual and theoretical approaches and future developments in urban politics. It is a key reference to all researchers and policy-makers with an interest in urban politics.

Routledge Handbook of International Relations in the Middle East Routledge

From the United States to the Middle East, Asia and Africa, religion has become an increasingly important factor in political activity and organisation. This Handbook provides a definitive global survey of the interaction of religion and politics. Featuring contributions from an international team of experts, it examines the political aspects of all the world's major religions, including such crucial contemporary issues as religious fundamentalism, terrorism, the war on terror, the 'clash of civilizations' and science and religion. Four main themes addressed include: the World religions and politics religion and governance religion and international relations religion, security and development. References at the end of each chapter guide the reader towards the most up-to-date information on various topics. In addition, large amounts of information make this book an indispensable source of information for students, academics and the wider public interested in the dynamic relationship between politics and religion.

Routledge Handbook of Global Environmental Politics

Routledge

What does responsibility mean in International Relations (IR)? This handbook brings together cutting-edge research on the critical debates about responsibility that are currently being undertaken in IR theory. This handbook both reflects upon an emerging field based on an engagement in the most crucial theoretical debates and serves as a foundational text by showing how deeply a discussion of responsibility is embedded in broader questions of IR theory and practice. Contributions cover the way in which responsibility is theorized across different approaches in IR and relevant neighboring disciplines and demonstrate how responsibility matters in different policy fields of global governance. Chapters with an empirical focus zoom in on particular actor constellations of (emerging) states, international organizations, political movements, or corporations, or address how responsibility matters in structuring the politics of global commons, such as oceans, resources, or the Internet. Providing a comprehensive overview of IR scholarship on responsibility, this accessible and interdisciplinary text will be a valuable resource for scholars and students in many fields including IR, international law, political theory, global ethics, science and technology, area studies, development studies, business ethics, and environmental and security governance.

Routledge Handbook of International Organization

Routledge

The Routledge Handbook of Scandinavian Politics is a comprehensive overview of Scandinavian politics provided by leading experts in the field and covering the polity, the politics and the policy of Scandinavia. Coherently structured with a multi-level thematic approach, it explains and details Scandinavian politics today through a series of cutting-edge chapters. It will be a key reference point both for advanced-level students developing knowledge about the subject, as well as researchers producing new material in the area and beyond. It brings geographical scope and depth, with comparative chapters contributed by experts across the region. Methodologically and theoretically pluralistic, the handbook is in itself a

reflection of the field of political science in Scandinavia and the diversity of the issues covered in the volume. The Routledge Handbook of Scandinavian Politics will be an essential reference for scholars, students, researchers and practitioners interested and working in the fields of Scandinavian politics, European politics, comparative politics and international relations.

The Routledge Handbook of Translation and Politics Routledge

The Routledge Handbook of Language and Politics provides a comprehensive overview of this important and dynamic area of study and research. Language is indispensable to initiating, justifying, legitimatising and coordinating action as well as negotiating conflict and, as such, is intrinsically linked to the area of politics. With 45 chapters written by leading scholars from around the world, this Handbook covers the following key areas: Overviews of the most influential theoretical approaches, including Bourdieu, Foucault, Habermas and Marx; Methodological approaches to language and politics, covering – among others – content analysis, conversation analysis, multimodal analysis and narrative analysis; Genres of political action from speech-making and policy to national anthems and billboards; Cutting-edge case studies about hot-topic socio-political phenomena, such as ageing, social class, gendered politics and populism. The Routledge Handbook of Language and Politics is a vibrant survey of this key field and is essential reading for advanced students and researchers studying language and politics.
