The Vanishing Half Flatiron Books #1 NEW YORK TIMES BESTSELLER • In her latest book, Bren é Brown writes, “ If we want to find the way back to ourselves and one another, we need language and the grounded confidence to both tell our stories and be stewards of the stories that we

hear. This is the framework for meaningful connection. ” In Atlas of the Heart, Brown takes us on a journey through eighty-seven of the emotions and experiences that define what it means to be human. As she maps the necessary skills and an actionable framework for meaningful connection, she gives us the language and tools to access a universe of new choices and second chances—a universe where we can share

and steward the stories of our bravest and most heartbreaking moments with one another in a way that builds connection. Over the past two decades, Brown ' s extensive research into the experiences that make us who we are has shaped the cultural conversation and helped define what it means to be courageous with our lives. Atlas of the Heart draws on this research, as well as on Brown ' s singular skills as a storyteller, to

show us how accurately naming an experience doesn ' t give the experience more power—it gives us the power of understanding, meaning, and choice. Brown shares, “ I want this book to be an atlas for all of us, because I believe that, with an adventurous heart and the right maps, we can travel anywhere and never fear losing ourselves.” Half a Heart Random House A beautiful, widowed Native American woman, Marlo

this family, from the Deep South to California, from the 1950s to the 1990s, Brit Bennett produces a story that is at once a riveting, emotional family story and a brilliant exploration of the American history of passing. Looking well beyond issues of race, *The Vanishing Half* considers the lasting influence of the past as it shapes a person's decisions,

desires, and expectations, and explores some of the multiple reasons and realms in which people sometimes feel pulled to live as something other than their origins. As with her New York Times-bestselling debut *The Mothers*, Brit Bennett offers an engrossing page-turner about family and relationships that is immersive and provocative, compassionate

(Publishers Weekly) #1 New York Times bestseller about a writer's horrific and haunting pseudonym. "I'm back...I'm back from the dead and you don't seem glad to see me at all, you ungrateful son of a bitch." After thirteen years of international bestseller stardom with his works of violent crime fiction, author George Stark is officially declared dead—revealed by a national magazine to have been killed at the hands of the man who created him: the once well-regarded but now obscure writer Thad Beaumont. Thad's even gone so far as to stage a mock burial of his wildly successful pseudonym, complete with tombstone and the epitaph "Not a Very Nice Guy." Although on the surface, it seems that Thad can finally concentrate on his own novels, there's a certain unease at the prospect of leaving George Stark behind. But that's nothing compared to the horror about to descend upon Thad's new life. There are the vicious, out-of-control nightmares, for starters. And how is he able to explain the fact that everyone connected to George Stark's untimely demise is now meeting a brutal end of their own in a pattern of homicidal savagery...and why each blood-soaked crime scene has Thad's fingerprints all over it? Half of My Heart  
The Body  
Electric tells the  
fascinating  
story of our  
bioelectric  
selves. Robert  
O. Becker, a  
pioneer in the  
field of  
regeneration  
and its  
relationship to  
electrical  
currents in  
living things,  
challenges the  
established  
mechanistic  
understanding  
of the body. He  
found clues to  
the healing  
process in the  
long-discarded  
theory that  
electricity is  
vital to life. But  
as exciting as  
Becker's

---

discoveries are,  
pointing to the  
day when human  
limbs, spinal  
cords, and  
organs may be  
regenerated  
after they have  
been damaged,  
equally  
fascinating is the  
story of  
Becker's  
struggle to do  
such original  
work. The Body  
Electric  
explores new  
pathways in our  
understanding of  
evolution,  
acupuncture,  
psychic  
phenomena, and  
healing.
