Montgomery's *The Soul of an Octopus* does for the creature what Helen Macdonald's *H Is for Hawk* did for raptors."
—New Statesman, UK
"One of the best science books of the year."
—Science Friday, NPR
Another New York Times bestseller from the author of *The Good Good Pig*, this "fascinating...touching...informative...entertaining" (The Daily Beast) book explores the emotional and physical world of the octopus—a surprisingly complex, intelligent, and spirited creature—and the remarkable connections it makes with humans. In pursuit of the wild, solitary, predatory octopus, popular naturalist Sy Montgomery has practiced true immersion journalism. From New

England aquarium tanks to the reefs of French Polynesia and the Gulf of Mexico, she has befriended octopuses with strikingly different personalities—gentle Athena, assertive Octavia, curious Kali, and joyful Karma. Each creature shows her cleverness in myriad ways: escaping enclosures like an orangutan; jetting water to bounce balls; and endlessly tricking companions with multiple "sleights of hand" to get food. Scientists have only recently accepted the intelligence of dogs, birds, and chimpanzees but now are watching octopuses solve problems and are trying to decipher the meaning of the animal's color-changing techniques. With her

“joyful passion for these intelligent and fascinating creatures” (Library Journal Editors’ Spring Pick), Montgomery chronicles the growing appreciation of this mollusk as she tells a unique love story. By turns funny, entertaining, touching, and profound, *The Soul of an Octopus* reveals what octopuses can teach us about the meeting of two very different minds.

Material and Symbolic Circulation between Spain and England, 1554 – 1604

Routledge

The Poetical gazette; the official organ of the Poetry society and a review of poetical affairs, nos. 4-7 issued as supplements to the Academy, v. 79, Oct. 15, Nov. 5, Dec. 3 and 31, 1910
Imagery in Working

Memory and in Mental Discovery CreateSpace
This incredible exploration of the murky world of pseudo-history reveals the mix of proven facts, informed speculation, and pure fiction behind lost continents, ancient super-civilizations, and conspiratorial cover-ups—as well as the revisionist historical foundations of religions such as the Nation of Islam and the Church of Jesus Christ of Latter-day Saints. Drawing on the best scholarship available, Ronald H. Fritze shows that in spite of strong, mainstream historical evidence to the contrary, many of these ideas have proved durable and gained widespread acceptance. As the examples in *Invented Knowledge* reveal, pseudo-historians capitalize on and exploit anomalies in evidence to support their claims, rather than examining the

preponderance of research as a whole.

Managing Information
Risks: Threats,
Vulnerabilities, and
Responses identifies
and categorizes
risks related to
creation,
collection, storage,
retention,
retrieval,
disclosure and
ownership of
information in
organizations of all
types and sizes. It
is intended for risk
managers,
information
governance
specialists,
compliance officers,
attorneys, records
managers,
archivists, and

other decision-
makers, managers, and
analysts who are
responsible for risk
management
initiatives related
to their
organizations'
information assets.
An opening chapter
defines and discusses
risk terminology and
concepts that are
essential for
understanding,
assessing, and
controlling
information risk.
Subsequent chapters
provide detailed
explanations of
specific threats to
an organization's
information assets,
an assessment of
vulnerabilities that
the threats can
exploit, and a review
of available options
to address the

threats and their associated vulnerabilities. Applicable laws, regulations, and standards are cited at appropriate points in the text. Each chapter includes extensive endnotes that support specific points and provide suggestions for further reading. While the book is grounded in scholarship, the treatment is practical rather than theoretical. Each chapter focuses on knowledge and recommendations that readers can use to: heighten risk awareness within their organizations, identify threats and their associated consequences, assess vulnerabilities, evaluate risk mitigation options, define risk-related responsibilities, and align information-related initiatives and activities with their organizations' risk management strategies and policies. Compared to other works, this book deals with a broader range of information risks and draws on ideas from a greater variety of disciplines, including business process management, law, financial analysis, records management, information science, and archival administration. Most books on this topic associate information risk with digital

data, information technology, and cyber security. This book covers risks to information of any type in any format, including paper and photographic records as well as digital content.

Skeletons Don't Sleep Baywolf Press

Welcome aboard the sex-drive void ship . . . Captain Genro commands the giant spaceship Dragon Zephyr - on board are ten thousand passengers in electrocoma, a smaller number of conscious passengers eagerly utilising the ship's dream chambers - and a Pilot. In the context of space travel, the Pilot is merely a biological component in the machine. Always a woman, her function is to launch the ship into the Jump by means of a cosmic orgasm. She is a pariah, shunned by all. Void Captain Genro should never even have spoken to his Pilot, let alone tried to embark on a relationship with her. When he did so, the result was every space

traveller's nightmare. A Blind Jump into the Void . . .

Rural Rides John Wiley & Sons

Our proven Spectrum Science grade 6 workbook features 176 pages of fundamentals in science learning. Developed to current national science standards, covering all aspects of sixth grade science education. This workbook for children ages 11 to 12 includes exercises that reinforce science skills across the different science areas. Science skills include:

- Observational Science
- Atomic Structure
- Heredity
- Earth's History
- Space Technology
- Natural Hazards
- Cultural Contributions to Science

Our best-selling Spectrum Science series features age-appropriate workbooks for grade 3 to grade 8. Developed with the latest standards-based teaching methods that provide targeted practice in science fundamentals to ensure successful learning!

Westminster and Foreign Quarterly Review Carson-Dellosa Publishing

“ Every teacher, every student of history, every citizen should

read this book. It is both a refreshing antidote to what has passed for history in our educational system and a one-volume education in itself. ” —Howard Zinn A new edition of the national bestseller and American Book Award winner, with a new preface by the author Since its first publication in 1995, *Lies My Teacher Told Me* has become one of the most important—and successful—history books of our time. Having sold nearly two million copies, the book also won an American Book Award and the Oliver Cromwell Cox Award for Distinguished Anti-Racist Scholarship and was heralded on the front page of the *New York Times*. For this new edition, Loewen has added a new preface that shows how inadequate history courses in high school help produce adult Americans who think Donald Trump can solve their problems, and calls out academic historians for abandoning the

concept of truth in a misguided effort to be “ objective. ” What started out as a survey of the twelve leading American history textbooks has ended up being what the *San Francisco Chronicle* calls “ an extremely convincing plea for truth in education. ” In *Lies My Teacher Told Me*, James W. Loewen brings history alive in all its complexity and ambiguity. Beginning with pre-Columbian history and ranging over characters and events as diverse as Reconstruction, Helen Keller, the first Thanksgiving, the My Lai massacre, 9/11, and the Iraq War, Loewen offers an eye-opening critique of existing textbooks, and a wonderful retelling of American history as it should—and could—be taught to American students. TERRAFORMING MARS

This book provides a thorough scientific review of how Mars might eventually be colonized, industrialized, and transformed into a world better suited to human habitation. The idea of terraforming Mars has, in recent times, become a topic of intense scientific interest and great public debate. Stimulated in part by the contemporary imperative to begin geoengineering Earth, as a means to combat global climate change, the terraforming of Mars will work to make its presently hostile environment more suitable to life—especially human life. Geoengineering and terraforming, at their core, have the same goal—that is to enhance (or revive) the ability of a specific environment to support human life, society, and industry. The chapters in this text, written by experts in their

respective fields, are accordingly in resonance with the important, and ongoing discussions concerning the human stewardship of global climate systems. In this sense, the text is both timely and relevant and will cover issues relating to topics that will only grow in their relevance in future decades. The notion of terraforming Mars is not a new one, as such, and it has long played as the background narrative in many science fiction novels. This book, however, deals exclusively with what is physically possible, and what might conceivably be put into actual practice within the next several human generations. Audience: Researchers in planetary science, astronomy, astrobiology, space engineering, architecture, ethics, as well as members of the space industry.

The Tripping Horse
Psychology Press

This is the true, gut-wrenching story of a man, his

life in pieces, who overcomes all the odds through his courage to face the demon of his childhood - helped by the love of a woman. Sexually abused for years as a boy by his adoptive father, the teenager finally decides to reveal his terrible secret. But, instead of care and protection, he is forced to withdraw his accusation - and becomes a victim again when sent to a shocking institution by his abuser. There he is subjected to more degradation, physical and mental...a victim once again. His life as a young man heads downhill until he falls in love and regains his lost soul. And, finally, he sees justice served after seventeen years of torment. *Skeletons* is a must read for anyone who admires the human spirit fighting against adversity - and it is a true love story

The Soul of an Octopus The

A special issue of *European journal of cognitive psychology*.

The Cave Twins Rowman & Littlefield Publishers

Separated only by a narrow body of water, Spain and England have had a long history of material and cultural interactions; but this intertwined history is rarely perceived by scholars of one country with a view toward the other. Through their analyses of the various modes of exchange of material goods and the circulation of symbolic systems of meaning, the contributors to the anthology - historians and literary critics - investigate, for the first time, the two nations' express points of contact and conflict during these historically crucial fifty years. Focusing on the half-century period that began with the marriage of Mary Tudor to Prince Philip of Spain, and spanned the reigns of Philip II and Elizabeth I of England, the essays in this anthology demonstrate and problematize, from the perspective of Spanish cultural history, the

significant material, cultural, and symbolic contacts between the two countries. The volume shows how the two countries' alliances and clashes, which led to the debacle of the 'Invincible Armada' of 1588 and continued for decades afterwards, held enormous historical significance by shaping the religious, political, and cultural developments of the modern world.

Third Series Reaktion Books

Chase Williams is a demon hunter in the Circle, or at least he was supposed to be. On his fifteenth birthday, Chase stepped up to the altar to claim his elemental power, but it never came. Elemental magic is passed down to a hunter through the bloodline, but on

Chase's birthday, the bloodline stopped. Exiled without the Circle's protection, Chase has spent two years trying to survive a world riddled with half-demons and magic. When he has a run in with a frightened and seemingly innocent demon, he learns the Circle's agenda has changed: the Circle plans to unlock a portal and unleash pure-blood demons into the world. Vowing to stop them, and knowing he can't do it alone, Chase forms a reluctant alliance with Rayna - a sexy witch with an attitude and a secret. In their attempt to stop them, Chase and Rayna find themselves in the middle of the Circle's plan, leaving one of them to decide what their friendship is worth, and the other's life depending on it.

The New York Times Book Review

A suspenseful incident in a forbidden preserve heightens the senses of five friends. Sight, sound, touch, taste, and smell become super-gifts that forever change the world. But furious battles confront

the boys as they try to understand their sensory super powers in a race to save mankind. With light beings and mysterious strangers complicating their plight, will the boys be able to defeat the evil Druth before it 's too late? Get prepared for the twisting and grinding of this award-winning, action-adventure story — an edge-of-your-seat narrative for young and mature readers alike.

DISCOVERY...26-year-old
Ashley Marshall lives life
through a sense of order.

Working as an insurance clerk, he finds plenty of opportunities to arrange his and other people's lives. However, despite strenuous efforts, his home life is far harder to regulate. Still living at home with his mother and itinerant brother David, he finds it impossible to control

their unpredictable behaviour. One Friday morning, Ashley's brother leaves home to spend a weekend at a rock festival. His failure to return sends his mother into an uncontrollable panic. Terrified of her declared intention to travel to the festival site, Ashley reluctantly agrees to try and locate his errant brother. Outside of his comfort zone, Ashley enters into a myriad of new and terrifying experiences that tear at his narrow sensibilities and challenge his sense of being. *The Tripping Horse* is an extraordinary odyssey into family dynamics, conflicting lifestyles and self-discovery. Simon Wells is the author of seven books including " *Butterfly On A Wheel* " and the best-selling " *Charles Manson: Coming Down Fast* ". *The Tripping Horse* is his first novel.

Drawing Around the World: USA outlines a simple, fast, and

easy program to teach students to memorize the United States of America. With *Drawing Around the World: USA*, students, in only minutes per day, engage in fun geography lessons that teach them to draw the 50 states plus Washington D. C. Additionally, students learn the state capitals and interesting facts about each state as they complete the state fact table.

Love at Sunset

Rural Rides is the book for which the English journalist, agriculturist and political reformer William Cobbett is best known. At the time of writing *Rural Rides*, in the early 1820s, Cobbett was a radical anti-Corn Law campaigner. He embarked on a series of journeys by horseback through the countryside of Southeast England and the English Midlands. He wrote down what he saw from the points of view both of a farmer and a

social reformer. The result documents the early 19th-century countryside and its people as well as giving free vent to Cobbett's opinions

Bibliotheca Sacra and
Theological Review

**A GRIPPING ROMANTIC
SUSPENSE!** Set in The Bahamas and Scotland, with scenes in London, Devon, Fort Lauderdale and New York. "LOVE AT SUNSET" shows the determination of Violet and Gordon, a feisty older couple in love for the second time around, to enjoy their autumn years to the fullest. Faced with fierce opposition from their children and possible payback from an armed robber, they flee The Bahamas for a loch side cottage in Scotland. But trouble soon catches up with them. THE PLOT follows the people in the couple's lives - those who support them, others who wish to resist or harm them, and some on whom Cupid also comes calling. It portrays family

discord and evil intent, but is not without a touch of humour. And it reveals the gap between rich and poor and the humanitarian works of those who care. THE NOVEL grew out of the author's short story "Love at Sunset," first published in "The Lady" magazine, London, England, and featured in "Sunbeams from the Heart - A Collection of Twelve Romantic Short Stories." Here, by popular demand, is the full story of Violet and Gordon and their undying love for each other, despite all odds!

EXCERPTS FROM LOVE AT SUNSET: "Once out of sight from the main road, they relaxed on a seat beneath a casuarina tree and kissed. Then they gazed out across the sapphire blue sea to a lone sailboat on the horizon. The sun was going down, the sky like an artist's canvas with gold and orange brush strokes. The sweet aroma of a barbecue drifted along the sea shore." "The

apartment was spotless. Violet's elegant furniture was still in place, but her ornaments, photos, paintings and other personal items were missing. Sandra opened drawers and closets. Empty." "Ian sang a Bahamian love song, thinking all the time about Anna, the young woman he had recently been thrown together with at the humane society. He remembered how she had swept her long brown hair out of the way and smiled at him with those soft hazel eyes." Aware they would need to turn back soon because the days were getting shorter, they ate quickly and continued up the mountain slope. The path had become slippery, with mud in patches. "It's getting a bit misty," Violet said, feeling a little anxious. "Perhaps we should turn back." "Just a bit further, lassie. We still have time." But the path became more treacherous. "As darkness fell he heated up a can of soup and had it with some fresh,

sweet Long Island bread. He made sure his door was locked, stretched out on the bed and tried to go to sleep. He kept thinking about the two men and wondered why they thought so highly of Violet Buchanan. As far as he was concerned, she was just an old lady with a lot of property that she really didn't need."
