India, That Is Bharat, the first book of a comprehensive trilogy, explores the influence of European 'colonial consciousness' (or 'coloniality'), in particular its religious and racial roots, on Bharat as the successor state to the Indic civilisation and the origins of the Indian Constitution. It lays the foundation for its sequels by covering the period between the Age of Discovery, marked by Christopher Columbus' expedition in 1492, and the reshaping of Bharat through a British-made constitution-the Government of India Act

of 1919. This includes international developments leading to the founding of the League of Nations by Western powers that tangibly impacted this journey. Further, this work also traces the origins of seemingly universal constructs such as 'toleration', 'secularism' and 'humanism' to Christian political theology. Their subsequent role in subverting the indigenous Indic consciousness through a secularised and universalised Reformation, that is, constitutionalism, is examined. It also puts forth the concept of Middle Eastern coloniality, which preceded its European variant and allies with it in the context of Bharat to advance their shared antipathy towards the Indic worldview. In order to liberate Bharat's distinctive indigeneity, 'decoloniality' is presented as a civilisational imperative in the spheres of nature, religion, culture, history, education, language and, crucially, in the realm of constitutionalism. scientists have paid scant attention to this phenomenon. Curried Cultures – a wide-ranging collection of essays – explores the relationship between globalization and South Asia through food, covering the cuisine of the colonial period to the contemporary era, investigating its material and symbolic meanings. Curried Cultures challenges disciplinary boundaries in considering South Asian gastronomy by assuming a proximity to dishes and diets that is often missing when food is a lens to investigate other topics. The book's established scholarly contributors examine food to comment on a range of cultural activities as they argue that the practice of cooking and eating matter as an important way of knowing the world and acting on it. A Vedic Concordance is a monumental work by the famous American Sanskritist Maurice Bloomfield planned prepared and published during the years 1892-1906. It affords primarily an easy and ready means of ascertaining the following things: First where a given mantra occurs if it occurs but once second whether it occurs elsewhere either with or without variants and in what places and third if it occurs with variants what those variants are. One hundred and nineteen texts in all have been drawn upon for contributions to the concordance comprising .The concordance also includes a very considerable amount of material not yet published. The concordance may also be readily put to certain indirect or secondary uses which are scarcely less important for the systematic progress of vedic study.

There are two primary versions or Samhitas of the Yajurveda: Shukla (white) and Krishna (black). Both contain the verses necessary for rituals, but the Krishna Yajurveda includes the Brahmana prose discussions mixed within the Samhita, while the Shukla Yajurveda has separately a Brahmana text, the Shatapatha Brahmana. Shukla Yajurveda The Shukla Yajurveda is represented by the Vajasaneyi Samhita. The name Vajasaneyi is derived from Vajasaneya, patronymic of sage Yajnavalkya, an authority and according to tradition, founder of the Vajasaneyi branch. The Vajasaneyi Samhita has forty chapters or adhyayas, containing the formulas used with the following rituals: 1.-2.: New and Full Moon sacrifices 3.: Agnihotra 4.-8.: Somayajna 9.-10.: Vajapeya and Rajasuya, two modifications of the Soma sacrifice 11.-18.: construction of altars and hearths, especially the Agnicayana 19.-21.: Sautramani, a ritual originally counteracting the effects of excessive Soma-drinking 22.-25.: Ashvamedha 26.-29.: supplementary formulas for various rituals 30.-31.: Purushamedha 32.-34.: Sarvamedha 35.: Pitriyajna 36.-39.: Pravargya 40.: the final adhyaya is the famous Isha Upanishad -wikipedia

This full-color illustrated textbook offers the first comprehensive introduction to all major aspects of tropical ecology. It explains why the world's tropical rain forests are so universally rich in species, what factors may contribute to high species richness, how nutrient cycles affect rain forest ecology, and how ecologists investigate the complex interrelationships among flora and fauna. It covers tropical montane ecology, riverine ecosystems, savanna, dry forest--and more. Tropical Ecology begins with a historical overview followed by a sweeping discussion of biogeography and evolution, and then introduces students to the unique and complex structure of tropical rain forests. Other topics include the processes that influence everything from species richness to rates of photosynthesis: how global climate change may affect rain forest characteristics and function; how fragmentation of ecosystems affects species richness and ecological processes; human ecology in the tropics; biodiversity; and conservation of tropical ecosystems and species. Sandhya Vandanam is one of the efficient
spiritual rituals of the Hindus. It helps in the
realisation of the Divinity of the Self called as
Atman in Hindu philosophy. It is an obligatory
daily ritual called as Nithya Karma. It is an all-

round complete ritual which incorporates the principles of the Supreme Divinity referred to as Brahman. Each part of the ritual gives an external expression for the development of an internal mental attitude and spiritual feeling. In this process, there is an effort to bring about self-purification and attunement to the Cosmic Reality. The rituals are to be done thrice daily-early morning, at noon and at sunset. In the Hindu way of life, each person is primarily affiliated to a particular Vedic study, namely the Rig Veda, the Yajur Veda and the Sama Veda. Though the objectives are generally the same, there are variations in the mantras of these three vedas. This book is an attempt to give the meanings of some of the important Mantras of the Yajur Veda sect basically followed in the southern part of India. Based on the different stages of the ritual, it has been divided into eighteen chapters for the purpose of easy grasp and understanding by those who are not well-versed in the knowledge of these mantras. An audio book has also been published and is available with audio booksellers.

Upanayana is one of the sixteen samskaras or purificatory rites in which a boy is invested with the sacred thread and thus endowed with second or spiritual birth and qualified to learn the Veda by heart. In this ceremony the boy goes to an Acarya well-versed in the Vedas with a view to be initiated into Vedic studies or a Guru draws a boy towards himself and initiates him into one of the three twice-born classes. From the day the initiation ceremony takes place the young celibate commits himself to a life of austerity and abstinence; he chooses to lead a life rigorously disciplined by vows and disciplinary rules.
