How Boston radio station WBCN became the hub of the rock-and-roll, antiwar, psychedelic solar system. While San Francisco was celebrating a psychedelic Summer of Love in 1967, Boston stayed buttoned up and battened down. But that changed the following year, when a Harvard Law School graduate student named Ray Riepen founded a radio station that played music that young people, including the hundreds of thousands at Boston-area colleges, actually wanted to hear. WBCN-FM featured album cuts by such artists as the Mothers of Invention, Aretha Franklin, and Cream, played by announcers who felt free to

---

express their opinions on subjects that ranged from recreational drugs to the war in Vietnam. In this engaging and generously illustrated chronicle, Peabody Award – winning journalist and one-time WBCN announcer Bill Lichtenstein tells the story of how a radio station became part of a revolution in youth culture. At WBCN, creativity and countercultural politics ruled: there were no set playlists; news segments anticipated the satire of *The Daily Show*; on-air interviewees ranged from John and Yoko to Noam Chomsky; a telephone “Listener Line” fielded questions on any subject, day and night. From 1968 to Watergate, Boston’s WBCN was the hub of the rock-and-roll, antiwar, psychedelic solar system. A cornucopia of images in color and black and white includes concert posters, news clippings, photographs of performers in action, and scenes of joyousness on Boston Common. Interwoven through the narrative are excerpts from interviews with WBCN pioneers, including Charles Laquidara, the “news dissector” Danny Schechter, Marsha Steinberg, and Mitchell Kertzman. Lichtenstein’s documentary *WBCN and the American Revolution* is available as a DVD sold separately.

"Think Coca-Cola. Think iPod. Think Nike. Think Google. Each of these names represents a successful product or service but, more importantly, they are all successful brands. Most attempts to explain the role of brands focus on brands either as management tools (managerial perspective) or as symptoms of consumerism (sociological perspective). In Brand Society, Martin Kornberger combines these perspectives to show how brands have the power to transform both the organizations that develop them and the lifestyles of the individuals who consume them. This holistic approach shows how brands function as a medium between producers and consumers in a way that is rapidly transforming our economy

and society. Using an array of practical case studies from a diverse set of organizations, this book provides a fascinating account of the way in which brands influence the lives of individuals and the organizations they work in"--Provided by publisher.

“ Peter Thiel has built multiple breakthrough companies, and Zero to One shows how. ” —Elon Musk, CEO of SpaceX and Tesla  
The great secret of our time is that there are still uncharted frontiers to explore and new inventions to create. In Zero to One, legendary entrepreneur and investor Peter Thiel shows how we can find singular ways to create those new things. Thiel begins with the contrarian premise that we live in an age of technological stagnation, even if we ’ re too distracted by shiny mobile devices to notice. Information technology has improved rapidly, but there is no reason why progress should be limited to computers or Silicon Valley. Progress can be achieved in any industry or area of business. It comes from the most important skill that every leader must master: learning to think

---

for yourself. Doing what someone else already knows how to do takes the world from 1 to n, adding more of something familiar. But when you do something new, you go from 0 to 1. The next Bill Gates will not build an operating system. The next Larry Page or Sergey Brin won't make a search engine. Tomorrow's champions will not win by competing ruthlessly in today's marketplace. They will escape competition altogether, because their businesses will be unique. Zero to One presents at once an optimistic view of the future of progress in America and a new way of thinking about innovation: it starts by learning to ask the questions that lead you to find value in unexpected places.

In this long-awaited book from the world's premier brand expert and author of the seminal work *Building Strong Brands*, David Aaker shows

managers how to construct a brand portfolio strategy that will support a company's business strategy and create relevance, differentiation, energy, leverage, and clarity. Building on case studies of world-class brands such as Dell, Disney, Microsoft, Sony, Dove, Intel, CitiGroup, and PowerBar, Aaker demonstrates how powerful, cohesive brand strategies have enabled managers to revitalize brands, support business growth, and create discipline in confused, bloated portfolios of master brands, subbrands, endorser brands, cobrands, and brand extensions. Renowned brand guru Aaker demonstrates that assuring that each brand in the portfolio has a clear role and actively reinforces and supports the other portfolio brands will profoundly affect the firm's profitability. *Brand Portfolio Strategy* is required reading not only for brand managers but for all managers with bottom-line responsibility to their

WINNER: NYC Big Book Award 2020 - Sales and Marketing category WINNER: The Stevie Awards 2020 - 'Book of the Year' Silver award, Women in Business category Written by the award-winning storyteller Miri Rodriguez at Microsoft, this actionable guide goes beyond content strategy and, instead, demonstrates how to leverage brand storytelling in the marketing mix to strengthen brand engagement and achieve long-term growth, with advice from brands like Expedia, Coca Cola, McDonalds, Adobe and Google. Despite understanding essential storytelling techniques, brands continue to explain how their product or service can help the customer, rather than showcasing how the

customer's life has changed as a result of them. Brand Storytelling gets back to the heart of brand loyalty, consumer behaviour and engagement as a business strategy: using storytelling to trigger the emotions that humans are driven by. It provides a step by step guide to assess, dismantle, and rebuild a brand story, shifting the brand from a 'hero' to 'sidekick' mentality, and positioning the customer as a key influencer to motivate the audience. Simplifying where to begin, how to benchmark success and ensure a consistent brand voice throughout every department, this book clearly shows how readers can align an emotive connection with the customer's personal values, experiences and aspirations, and how that will enable brand leaders, employees and influencers to celebrate and

---

strengthen brand engagement for the long-term, rather than simply trying to win it. Clarifying why machine-learning, AI and automation only tell one side of the story, this book will inspire you with cutting edge interviews and case studies from leading brands like Expedia, Coca Cola, McDonalds, Adobe and Google, to tap into authentic brand loyalty and human connection.

A fundamental paradigm shift has occurred in marketing and branding. Today the most successful CEOs, executives, entrepreneurs and enterprises set their sites on developing a long-term platform instead of a short-term strategy

that supports and builds buzz for their personal or business brand. That 's really the key to the new business mindset — the recognition that branding and marketing are an ongoing, steady stream of small efforts, not a series of gigantic pushes. Social media, blogging and other business development activities — both online and off — are about the persistent, ongoing process of building a platform, creating credibility and increasing the number of people that you funnel into your potential client and network pipeline. Converting those people into clients or fans may take a month, a year or two years, but the new mindset leads you to strategies that will keep that pipeline full. In short, you need to start a bunch of small fires to keep your brand burning hot. How can today 's CEOs, executives and entrepreneurs keep these fires going and powerfully get their messages across, motivate others to action and be authentic
