Sculptures from Roman Syria II Springer  
The church fathers displayed considerable interest in the early chapters of Genesis, and often wrote detailed commentaries or preached series of homilies on the Hexameron--the Six Days of Creation. This volume of Ancient Christian Texts offers a first-time English translation of Severian of Gabala's In cosmogoniam and a fresh translation of a portion of Bede the Venerable's Libri quatuor in principium Genesis.

This book illustrates the  
main factors of  
vulnerability and gives a  
clear picture about the  
possible interventions to  
reduce disaster risks both  
in schools and  
communities in  
Azerbaijan. A new  
methodology for child  
centered vulnerability  
assessments both on  
school and community  
levels has been  
developed. This  
methodology can be used  
to assess the level of  
vulnerability of schools

and communities. The  
book is a newly prepared  
training manual which will  
help practitioners conduct  
trainings for government

book is focused on a  
specific region, the  
suggested approach is  
generic and can be used  
elsewhere.

Lebor Gabála Éirenn  
("The Book of the  
Taking of Ireland") is a  
collection of poems and  
prose narratives that  
purports to be a history  
of Ireland and the Irish  
from the creation of the  
world to the Middle  
Ages. There are a  
number of versions, the  
earliest of which was  
compiled by an  
anonymous writer in the  
11th century. It  
synthesized narratives  
that had been developing  
over the foregoing  
centuries. The Lebor  
Gabála tells of Ireland  
being settled (or 'taken')  
six times by six groups  
of people: the people of  
Cessair, the people of  
Partholón, the people of  
Nemed, the Fir Bolg, the  
Tuatha Dé Danann, and  
the Milesians. The first  
four groups are wiped

out or forced to abandon  
the island, the fifth group  
represent Ireland's pagan  
gods,[1] while the final  
group represent the Irish  
people (the Gaels).

Coins have not changed much throughout antiquity. Yes, they are made from different, more durable materials now, but they are still etched with depictions of their civilization, whether that means the profile of George Washington or the profile of Emperor Nero or the profile of a lion, the symbol of ancient Babylon.

Following the course of time from Abraham to the Crusaders, Ancient Coins through the Bible chronicles the history of various locations mentioned throughout the Bible and presents

photographs of ancient coins minted in these cities. Though we cannot see those ancient civilizations or the way they lived, these tangible bits of the past speak abundantly about them.

As you view these fragments of history, imagine you are traveling with Abraham to Canaan and Paul to Spain.

Experience the biblical stories visually through the coins depicted instead of simply reading them, and better understand the lessons taught by God's Word.

volume reference work on all aspects of the Christian Church. It contains over 6,000 cross-referenced A-Z entries, and offers unrivalled coverage of all aspects of this vast and often complex subject, including theology, churches and denominations, patristic scholarship, the bible, the church calendar and its organization, popes, archbishops, saints, and mystics. In this revision, innumerable small changes have been made to take into account shifts in scholarly opinion, recent developments, such as the Church of England's new prayer book (Common Worship), RC canonizations,

ecumenical advances and mergers, and, where possible, statistics. A number of existing articles have been rewritten to reflect new evidence or understanding, for example the Holy Sepulchre entry, and there are a few new articles. Perhaps most significantly, a great number of the bibliographies have been updated.

Established since its first appearance in 1957 as an essential resource for ordinands, clergy, and members of religious orders, ODCC is an invaluable tool for academics, teachers, and students of church history and theology, as well as for the general reader.

The Military History of Late Rome 518-565 provides a new, fresh analysis of the revival of Roman fortunes during the reigns of Justin I (518-527) and Justinian I (527-565). The book narrates in great detail the re-conquests of North Africa, Italy and southern Spain by Justinian's

armies. It also explores the massive encounters between the Romans and Persians in the east, and the apocalyptic fights in the Balkans between the Romans and barbarians. The author pays particular attention to the tactics and battles so there is detailed analysis of all of the period engagements, such as Dara, Satala, Callinicum, Ad Decimum, Tricamarum, Rome, Scalae Veteres, Antonia Castra, Gallica, Campi Catonis, Hippis River, Busta Gallorum, Mons Lactarius, Casilinum, Archaeopolis, Phasis, and others. The narrative features the military exploits of the great Roman heroes, such as Belisarius and Narses, while not forgetting the many other overlooked generals such as Germanus, Mundus, John the nephew of Vitalian, Martinus, Dagistheus and Sittas, not to mention the dashing hero John Troglita whose achievements were immortalized by the Roman epic poet Corippus.

Europe - from Britain and the Isle of Man to Gaul and Brittany. Drawing on recent historical and archaeological research, as well as literary and oral sources, the guide looks at the gods and goddesses of Celtic myth; at the nature of Celtic religion, with its rituals of sun and moon worship; and at the druids who served society as judges, diviners and philosophers. It also examines the many Celtic deities who were linked with animals and such natural phenomena as rivers and caves, or who later became associated with local Christian saints. And it explores in detail the rich variety of Celtic myths: from early legends of King Arthur to the stories of the Welsh Mabinogi, and from tales of heroes including Cúchulainn, Fionn mac Cumhaill and the warrior queen Medb to tales of shadowy otherworlds - the homes of spirits and fairies. What emerges is a wonderfully diverse and fertile tradition of myth making that has captured the imagination of countless generations, introduced and explained here with compelling insight.

Papers presented at the Eleventh International Conference on Patristic Studies held in Oxford 1991 (see also *Studia Patristica* 24, 25, 26 and 28). The successive sets of *Studia Patristica* contain papers delivered at the International Conferences on Patristic Studies, which meet for a week once every four years in Oxford; they are held under the aegis of the Theology Faculty of the University. Members of these conferences come from all over the world and most offer papers. These range over the whole field, both East and West, from the second century to a section on the *Nachleben* of the Fathers. The majority are short papers dealing with some small and manageable point; they raise and sometimes resolve questions about the authenticity of documents, dates of events, and such like, and some unveil new texts. The smaller number of longer papers put such matters into context and indicate wider trends. The whole reflects the state of Patristic scholarship and demonstrates the vigour and popularity of the subject. Further Asia, Northern Africa, Western Europe

whole sweep of Irish literature in both the nation's languages, the book describes how Ireland's pagan divinities were transformed into literary characters in the medieval Christian era—and how they were recast again during the Celtic Revival of the late nineteenth and early twentieth centuries. A lively narrative of supernatural beings and their fascinating and sometimes bizarre stories, Mark Williams's comprehensive history traces how these gods—known as the T ú atha D é Danann—have shifted shape across the centuries. We meet the Morr í gan, crow goddess of battle; the fire goddess Brigit, who moonlights as a Christian saint; the fairies who inspired J.R.R. Tolkien's elves; and many others. Ireland's Immortals illuminates why these mythical beings have loomed so large in the world's imagination for so long.
