This is the story the daily press didn't give us. It may be the definitive book about what happened at Mt. Carmel, near Waco, Texas, examined from both sides—the Bureau of Alcohol and Tobacco and Firearms (ATF) and the FBI on one hand, and David Koresh and his followers on the other. Dick J. Reavis contends that the government had little reason to investigate Koresh and even less to raid the compound at Mt. Carmel. The government lied to the public about most of what happened—about who fired the first shots, about drug allegations, about child abuse. The FBI was duplicitous and negligent in gassing Mt. Carmel—and that alone could have started the fire that killed seventy-six people. Drawing on interviews with survivors of Koresh's

movement (which dates back to 1935), as well as from esoteric religious tracts and audiotapes, and previously undisclosed government documents, Reavis uncovers the real story of the burning at Waco, including the trial that followed. The author quotes from Koresh himself to create an extraordinary portrait of a movement, an assault, and an avoidable tragedy.

“ Mark Hamm is, without doubt, the world ’ s leading expert on prison radicalization. Based on decades of research, this book presents a nuanced and sophisticated picture,. Beautifully written, it is the most complete, and the most empirically rigorous, account of this phenomenon to date. A must read for anyone interested in homegrown radicalization. ” —Peter Neumann, Director of the International Centre for the Study of Radicalisation (ICSR), King ’ s College London The Madrid train

bombers, shoe-bomber Richard Reid, al-Qaeda in Iraq, and the 9/11 attacks—all were led by men radicalized behind bars. Today ' s prisons are hotbeds for personal transformation toward terrorist beliefs and actions due to the increasingly chaotic nature of prison life caused by mass incarceration. In *The Spectacular Few*, Mark Hamm, a former prison warden, demonstrates how prisoners use criminal cunning, collective resistance and nihilism to incite terrorism. Drawing from a wide range of sources, *The Spectacular Few* imagines the texture of prisoners ' lives. Hamm covers their criminal thinking styles, the social networks that influenced them, and personal “ turning points ” that set them on the pathway to violent extremism. Hamm argues that in order to understand terrorism today, we must come to terms with how prisoners are treated behind bars. Mark S. Hamm is a former prison warden from Arizona and currently Professor of Criminology at Indiana State University and a Senior Research Fellow at the Terrorism Center, John Jay College of Criminal

Justice, The City University of New York. His books include *Terrorism as Crime: From Oklahoma City to Al-Qaeda and Beyond* (NYU Press, 2007). *Alternative Criminology* series

5 young men. 32 destroyed police vehicles. 1 spectacular bank robbery. This “ cinematic ” true crime story transports readers to the scene of one of the most shocking bank heists in U.S. history—a crime that ' s almost too wild to be real (*The New York Times Book Review*). *Norco ' 80* tells the story of how five heavily armed young men—led by an apocalyptic born – again Christian—attempted a bank robbery that turned into one of the most violent criminal events in U.S. history, forever changing the face of American law

enforcement. Part action thriller and part courtroom drama, this Edgar Award finalist for Best Fact Crime transports the reader back to the Southern California of the 1970s, an era of predatory evangelical gurus, doomsday predictions, megachurches, and soaring crime rates, with the threat of nuclear obliteration looming over it all. In this riveting true story, a group of landscapers transforms into a murderous gang of bank robbers armed to the teeth with military – grade weapons. Their desperate getaway turns the surrounding towns into war zones. And when it ' s over, three are dead and close to twenty wounded; a police helicopter has been forced down from the sky, and thirty – two police vehicles have been completely demolished by thousands of rounds of ammo. The resulting trial shakes the community to the core, raising many issues that continue to plague society today: from the epidemic of post – traumatic stress disorder within law enforcement to religious extremism and the militarization of local police forces.

(Book). Every guitarist dreams of owning a handmade instrument, but for most, the cost is likely to be prohibitive. The alternative building your own fine guitar is not as difficult as you

might imagine, given some skill, patience, and the expert guidance of a master luthier. Every step of construction is fully covered, from choice, selection, and preparation of woods, to consideration of size, bracing, and tonal qualities. Each step of the building sequence is clearly photographed in color, with variations to the standard design shown to enable you to personalize your instrument as you make it. Briston, England-based Jonathan Kinhead has been building guitars for nearly 30 years. His craft is born out of experience and intuition rather than a

strict following of technical detail. The resulting beauty of form and distinctive tone have earned him his reputation as one of the world's most respected independent luthiers.

Police officers on the beat, officers on patrol, all cops - local, state, tribal and federal, 750,000 strong - doing what they do every day are the first and most effective line of defense against terrorist acts

committed in the Homeland. This manual is designed to overcome the failure of our national counter-terrorist strategy to better utilize local cops in homeland security by providing essential and practical knowledge local officers can use to identify terrorist precursor activities and more effectively interdict and prevent terrorist attacks from occurring. The goal is to acquaint officers with proactive “ first preventer ” knowledge and tactics so they can make police counterterrorism an integral part of their duties. Numerous case studies flesh out concepts such as terrorism, homeland security, terrorist threats posed by different terror groups, police counterterrorism intelligence, lone wolf terrorism, behavioral indicators of Islamist radicalization, terrorist tradecraft, terrorism indicators and warning signs, the terrorist attack cycle, terrorist attack tactics such as sniping, weapons of mass destruction, arson, improvised explosive devices (IEDs), suicide bombing tactics and surveillance detection techniques. This manual

is an excellent source of basic to intermediate training for intelligence analysts, members of Joint Terrorism Task Forces, criminal intelligence investigators, and all police officers.

Terrorism: Commentary on Security Documents Volume 148 Paladin Press
Using eye-witness accounts to narrate the terrifying, failed efforts at communication during the standoffs at Ruby Ridge and in Waco, TX, Haskin offers a psycho-social theory for militant white movements influenced by political economics. The heart-stopping dialogues as the authorities in both cases make their erroneous calculations are dramatic, but so is the idea that such events can furnish essential clues to success for those who are responsible for de-fusing such conflicts. The Ruby Ridge standoff and the

Branch Davidian siege were symptoms of a broader battle between the goals of Corporate Governance and the hatred of white supremacists. Haskin show that by instilling insecurity, the Corporate power makes a mockery of citizens' free will. Bred by a different set of goals and grievances, white supremacists would use and sacrifice anyone (whites included) to achieve their "whites-only" world. What if white supremacists and those who favor Corporate Governance find common ground? The worst of both their goals--grotesque levels of deprivation, debt peonage, survival slavery, ethnic cleansing, and racial and religious violence--may be our future.

TACTICAL COUNTERTERRORISM

Apress

This is a print on demand edition of a hard to find publication. Explores whether sufficient data exists to examine the temporal and spatial relationships that existed in terrorist group planning, and if so, could patterns of preparatory conduct be identified? About one-half of the terrorists resided, planned, and prepared for terrorism relatively close to their eventual target. The terrorist groups existed for 1,205 days from the first planning meeting to

the date of the actual/planned terrorist incident.

The planning process for specific acts began 2-3 months prior to the terrorist incident. This study examined selected terrorist groups/incidents in the U.S. from 1980-2002. It provides for the potential to identify patterns of conduct that might lead to intervention prior to the commission of the actual terrorist incidents. Illustrations.

Essential texts on the work of the influential artist Michael Snow: essays and interviews spanning more than four decades. Few filmmakers have had as large an impact on the recent avant-garde film scene as Canadian Michael Snow (b. 1928). His works in a range of media—film, installation, video, painting, sculpture, sound, photography, drawing, writing, and music—address the fundamental properties of his materials, the conditions of

perception and experience, questions of authorship in technologically reproducible media, and techniques of translation through written and pictorial representation. His film *Wavelength* (1967) is a milestone of avant-garde cinema and possibly the most frequently discussed “structural” film ever made. This volume collects essential texts on Snow's work, with essays and interviews spanning more than four decades. From its earliest issues, *October* has been a primary interlocutor of Snow's work, and many of these texts first appeared in its pages. Written by such distinguished critics and scholars as Annette Michelson, Hubert Damisch, and Malcolm Turvey, they document Snow's participation in postwar discourses of minimalism, postminimalism, photo-conceptualism, and avant-garde cinema, and examine particular works. Thierry de Duve's

essay on linguistics in Snow's work appears alongside Snow's response. The volume also includes other writings by Snow, images from his 1975 work *Musics for Piano, Whistling, Microphone, and Tape Recorder*, and an interview with the artist conducted by Annette Michelson. Essays and interviews Jean Arnaud, Érik Bulloz, Hubert Damisch, Thierry de Duve, André Hayum, Annette Michelson, Michael Snow, Amy Taubin, Malcolm Turvey, Kenneth White

When opportunists with criminal purposes worm their way into the power structure of a large school system, compromise law enforcement, and gain access to all that tax money, “education” takes on a whole new meaning. As events escalate, ugly acts of violence, disguised as accidents, are inflicted upon those who “get in the way.” When Ben Kelly, a man on shaky emotional underpinnings,

raises questions, he finds himself a target by people who will stop at nothing to carry out their felonious schemes. His unique path through hard circumstances down a perilous road of action provides the drive for what happens to him and those around him. In *The Annunaki Woman*, Rena, station chief of an interstellar craft, carries out her orders to attempt capture of a human with unusual DNA components. All hell breaks loose. She is stunned when her subject, Ben Kelly, and two companions react with deadly force and annihilate her team. More deadly events transpire and Rena is forced into tough decisions which throw her into conflict with her own people. Her problems are complicated by manifestations of Earth’s development of The Singularity, the intrusion of ancient races, and entities guarding old secrets emerging to engage her. Rena and Kelly are thrown together to survive. The action roars out of New Orleans into Arkansas and to other places farther north and then on to other very different places very

far away.
