"This is the Land of One of the oldest living culture of the world, the Dravidians! They defined culture through their living! A culture which attracted innumerable people to this magical land, who live here, enmeshed through great teachings and scripted Epics that evolved a way of life." The History of the World has seen Men and Women born to change the course of our lives through their personalities. We call them role models. Time will honor them as Greats and Legends. Do men and women of indomitable spirit rise to drive the change and create something new? I believe they rise not just because they want to, but because they feel they have to rise. They belong to a country, caste, creed and community only by birth, but their messages remain universal! Whatever we think of colonialism now, such men and women transformed the world. Tamil Nadu – A Journey in Time has come out of my realization and a truism that we live in a time when human identities – civilizations, cultures, tribes and individuals – are being erased everywhere across the globe; identities built up often over hundreds of years are lost in a generation. This is a tribute to the words, "Learn from the Past, prepare for the Future, and Perform in the Moment." - Mike Van Hoozer

1. Introduction, 2. Spiritual Heritage Tourist Centres in Tamil Nadu, 3. Cultural Heritage Tourist Centres in Tamil Nadu, 4. Natural Heritage Tourist Centres in Tamil Nadu, 5. Fairs, Festivals and Folk Entertainments in Tamil Nadu, 6. Tourism Plant Facilities in Tamil Nadu, 7. Conclusion and Suggestions. - PREFACE: "Tourism in Tamil Nadu - Growth and Development" is a captivating theme. Man has been fascinated by travel and tourism from the earliest historical period. He always has had the urge to discover the unknown, to explore new and strange places, to seek changes of environment and to undergo new experiences. Travelling to achieve these ends is not new, but tourism is of a relatively modern origin. Tourism is distinguishable by its mass character from the travel undertaken in the past. This is largely a post-second world war phenomenon. Until recently only affluent people participated in tourism. Increased leisure, higher incomes and greatly enhanced mobility have combined to enable more people to participate in Tourism. Revolution in transport, technological progress and the emergence of a middle class with time and money to spare for recreation, has led to the growth of tourism—"the modern holiday industry". Thus tourism is no longer the prerogative of a few but is an accepted part of life of a large number of people. India is one of the oldest civilizations with a kaleidoscopic variety and rich cultural heritage. For centuries India has been a centre of attraction for different people for different reasons. The ancient invaders viewed it as a goldmine with unlimited wealth to plunder; the learned were fascinated by its mystic spiritualism and profound philosophy; the uninitiated saw it as a land of naked fakirs and snake charmers; while the others were simply charmed by the sheer beauty of its natural attractions and amazing variety of its flora and fauna.

State Administration in Tamil Nadu Pearson Education India

This monograph presents a comprehensive account of environmental history of India and its tribals from the late eighteenth onwards, covering both the colonial and post-colonial periods. The book elaborately discusses the colonial plunder of forest resources up to the introduction of the Forest Act (1878) and focuses on how colonial policy impacted on the Indian environment, opening the floodgates of forest resources plunder, primarily for timber and to establish coffee and tea plantations. The book argues that even after the advent of conservation initiatives, commercial exploitation of forests continued unabated while stringent restrictions were imposed on the tribals, curtailing their access to the jungles. It details how post-colonial governments and populist votebank politics followed the same commercial forest policy till the 1980s without any major reform, exploiting forest resources and also encroaching upon forest lands, pushing the self-sustainable tribal economy to crumble. The book offers a comprehensive account of India's environmental history during both colonial and post-colonial times, contributing to the current environmental policy debates in Asia.

Although Tamil Nadu's public financial management has been characterized by strong fiscal discipline to date, risks and challenges are emerging. The State has largely observed the Fiscal Responsibility Act targets on debts and deficit (25 percent and 3 percent to GSDP, respectively) except during the electricity bailout in 2016-17. However, these targets appear to have been met by (1) controlling and delaying expenditure, (2) underallocating mandated payments to various reserve funds, and (3) allowing off-budget borrowing by Public Sector Undertakings (PSUs). Accordingly, the State's borrowing capacity is restricted, leaving limited fiscal space to address high priority needs in education, health, electricity, roads, and water sectors, as well as to address growing infrastructure pressures. More than 63 percent of the State's spending on current items is committed, to salaries, pensions, and interest payments. Little room remains for additional borrowing to fund spending pressures; moreover, climate change is likely to exacerbate fiscal risks from water stress and natural disasters.

This book presents a historical account of plantations in India in the context of the modern world economy. It brings history up to the present, thereby showing how history can assist in explaining contemporary conditions and trends. The author focuses on labour and economic development problems and uses the World Systems theory so as to demonstrate the practical utility of the theory and its limitations as a guide to historical research. Based on extensive archival research, the book interprets the dynamics of plantation capitalism by focusing on the work, life and struggle of the dalits on plantations in colonial and post-colonial South India as they evolved from the mid-19th century. It argues that these elements of the plantation life-world were fashioned by the specific characteristics of the workers' location within the capitalist world-economy, the then prevailing local social structure and the scheme of disciplining to which the workers were subjected to. Treating the relations among various social forces - the planting communities, the oppressed communities (dalits in India), the regional and national state, and the Imperial regime, this book fills a gap in academic literature on capitalism, economic development, and globalization.

Society is continually moving towards global interaction, and nations often contain citizens of numerous cultures and backgrounds. Bi-culturalism incorporates a higher degree of social inclusion in an effort to bring about social justice and change, and it may prove to be an alternative to the existing dogma of mainstream Europe-based hegemonic bodies of knowledge. The Handbook of Research on Indigenous Knowledge and Bi-Culturalism in a Global Context is a collection of innovative studies on the nature of indigenous bodies' knowledge that incorporates the sacred or spiritual influence across various countries following World War II, while exploring the difficulties faced as society immerses itself in bi-culturalism. While highlighting topics including bi-cultural teaching, Africology, and education empowerment, this book is ideally designed for academicians, urban planners, sociologists, anthropologists, researchers, and professionals seeking current research on validating the growth of indigenous thinking and ideas.
